REVIEWS SPANISH WAR IN FALKLAND ADDRESS

Rev. Nelson Harkness Speaker At United Church Service

FALKLAND, B.C., Oct. 4.—The United Church was crowded to capacity Monday evening, when the Rev. Nelson Harkness gave an interesting lecture, supplemented with lantern slides, on "The Tragedy in Spain."

Despite the horrible conflict being waged in that country, the work of the Bible Society is being carried on, even at times, under the most dangerous conditions, the speaker declared. As Mr. Harkness is B.C. secretary for the British and Foreign Bible Society, he gave a brief financial report also.

The first meeting of the Bridge Club was held Friday evening at the home of Mr. and Mrs. W. Warren. The former was appointed president, to replace Frank Tarry, who resigned. Miss Miriam Warren was again elected secretary-treasurer. Several new rules were drawn up: only one average score per month will be allowed; a member who may be absent; fees were increased to allow the secretary a better choice of prizes. The latter will be presented to the highest scoring gentleman and lady each month, with a grand prize at the conclusion of the season. Wednesday evening of each week was again chosen as the most suitable one for play.

W.M.S. MEETS
A special meeting of the Women's Missionary Society was held at the home of Mrs. A. Wallace Friday afternoon, when members chose gifts for the Christmas supply allocation which is being forwarded this year to Coqualeetza Indian school at Sarnia.

At the United Church Sunday evening, Thanksgiving service was held with G. Stanley Dawe, superintendent of the United Church Sunday school at Vernon officiating. Artistically decorated with fruits, vegetables and flowers of the season, the church background was an appropriate one in accord with the inspiring message presented by Mr. Dawe.

For the Sunday school session in the morning, the same effective idea was carried out, under the guidance of Mr. and Mrs. Frank Tarry. When the annual rally of the Women's Missionary Society was held at Enderby on Tuesday, Mrs. J. Alexander attended as delegate from this district. For her part on the program the visiting member gave an interesting talk on the "Medical Field of Our Missionary Work."

DANCE SUCCESS
Under the auspices of the Falkland and District Community Association a dance was held in the Community Hall Saturday evening with the Serenaders' orchestra of Armstrong attending.

The Rev. W. J. Selder, Mrs. Selder and infant son left for their home in Queen Charlotte City on Tuesday after a month's visit with Mrs. Selder's parents, Mr. and Mrs. W. McClelland.

After a week's holiday in Seattle, Mr. and Mrs. F. C. Kent and family returned home Tuesday.

Mrs. Walter Smith and daughters, Myrtle, Lillian and Lyla, left for their home in Princeton on Monday.

Mrs. J. Davies and daughter, Miss Catherine Davies, of Victoria, are visiting the former's son and daughter-in-law, Mr. and Mrs. E. V. Davies.

Donald Culling arrived from Westwood Sunday to attend High School here and is residing with Mr. and Mrs. H. Beddoes.

Miss H. Duke, of Kamloops, was the guest of Mr. and Mrs. W. Warren for several days last week.

Services were held in the Anglican Church Sunday evening with the Rev. C. Kirksey, of Chase, officiating.

CALGARY LIVESTOCK
CALGARY, Alta.—Steers, choice light, no quotations; good, \$4.75 to \$5.00; medium, \$3.75 to \$4.25; poor, \$3.00 to \$3.75; feeders, \$3.50 to \$4.50; stockers, \$3.75 to \$4.25. Cows, choice, \$3.00 to \$3.25; good, \$2.75 to \$3.00; medium, \$2.50 to \$2.75; common, \$1.75 to \$2.25; canners, \$1.50 to \$1.75; stockers, \$2.00 to \$3.00; springers, \$1.50 to \$2.00. Butcher, choice, \$3.00 to \$3.25; medium, \$2.50 to \$2.75; canners, \$1.00 to \$1.25. Calves, choice, \$5.50 to \$6.00; common, \$3.00 to \$4.50. Sheep, yearlings, \$3.00 to \$4.00; ewes, \$2.25 to \$2.75; lambs, \$5.00 to \$5.25. Hogs, bacon, off trucks, \$5.45.

ADDRESSING MACHINE FOR KELOWNA OFFICE
KELOWNA, B.C., Oct. 1.—The purchase of an addressing machine was approved by the city council. The machine, costing \$250, will be expected, reduce the time necessary to get out the city accounts from one week to one day and a half. The entire council supported the resolution excepting Alderman Sutherland.

Alderman Sutherland stated that could not support the resolution as in his opinion the purchase was "only sending a boy on a man's errand." He expressed the opinion that the city should go much farther in the purchase of mechanical equipment for the city office. "However, it is a step in the right direction," he said.

At last the wait ended and the newspapermen filed into the inner sanctum to be greeted by the friendly but very weary smile of the Prime Minister. On a couch near the window sat Dr. O. D. Skelton, Canada's expert on foreign affairs and the man through whose hands, all week, have passed the most important messages from Downing Street and Whitehall, keeping the Canadian government's hand on the rapid pulse of Europe.

"Gentlemen," said the Prime Minister, "I have had a long and tiring day. I would appreciate it if you would not bombard me tonight with too many questions."

Then the statement and at its end another smile which should have been reassuring, but wasn't. Did the Prime Minister know that at that moment the first steps were being taken in the final move to avert war? That question will never be answered.

Mr. King's carefully worded statement, and its later endorsement by the Opposition Leader, has cleared away the doubts and questionings which have pervaded Ottawa politics since the first signs of the international pot gave its first signs of boiling over. There have been those who strongly criticized Canada's Prime

And The Driver Lived

Ray Grice was driving his car at the Pottery Rd. crossing, East York, Ont., when it collided with a C.N.R. train going 12 miles an hour. There was a doctor on the train who treated Grice in the baggage car. He was rushed to hospital suffering from severe cuts and shock.

THE OTTAWA Listening Post

(By The Reporter With a Notebook)

By design or coincidence London's Downing Street has had a traditional panacea for public panic in times of national or international crisis. In the days of Stanley Baldwin's regime it was the Prime Minister's trip to a French Spa town when the world seemed to be tottering that reassured the waiting nation. Prime Minister Chamberlain has employed the usually reassuring device of bucking his fishing tackle in a conspicuous place on his car as he drives through the London streets.

Parliament Hill has no such outward manifestation that everything is under control unless it be Prime Minister Mackenzie King's broad, familiar smile.

With nations mobilizing for world disaster, Canada's Prime Minister has held his smile all through this tense dark week and Ottawa has gone about its daily routine under ironically sunny skies.

Even on black Tuesday, when Mr. King made his momentous announcement that Canada was ready "for any contingency," he smiled. His Cabinet had been in session since early in the day, recessing only long enough to hear Mr. Chamberlain's unassuming radio address.

Everyone knew what they were discussing. Everyone else was talking about it too—war. What was Canada going to do? Would the government call an immediate session of Parliament? Only those grave faced men sitting behind the closely guarded, sound-proof doors of the Council Chamber knew which way the national wind was blowing.

Outwardly calm, Parliament Hill was on the edge of its first attack of the war jitters. Your reporter and his notebook travelled the usual daily course but the routine was of the day was all out of focus. Two minutes' wait from the Council Chamber to Supreme Court Judge, sitting as a Royal Commission, and faced by a score of Canada's leading legal minds, was furrowing his brows over the intricacies of the government's Brex machine gun contract with the John Inglis Company of Toronto. The political fate of a Cabinet Minister might depend on those deliberations but on Tuesday that didn't seem to matter much.

Around four o'clock in the summer-like afternoon Parliament Hill's army of newspaper representatives started straggling into the anteroom of the Prime Minister's secretary. Cabinet meetings at Ottawa are followed by press conferences when Mr. King, as spokesman for his government, answers the barrage of questions that brings news of Cabinet doling.

On Tuesday, news writers waited nearly three hours for the famous summons to the Prime Minister's private office. It takes something more than world disaster to block the usual stream of wise-cracks when reporters get together. But on Tuesday the telephone was in the trench parlance of war-time France. The representative of a Paris news agency was asked whether he was on call as an army reservist. He answered "yes"—there was no joshing about it.

A few trades' journals had been picked up from the desk in the corner, and a few of the gathering were sitting turning pages with a show of nonchalance. About six o'clock the telephone was in the trench parlance of war-time France. The representative of a Paris news agency was asked whether he was on call as an army reservist. He answered "yes"—there was no joshing about it.

At last the wait ended and the newspapermen filed into the inner sanctum to be greeted by the friendly but very weary smile of the Prime Minister. On a couch near the window sat Dr. O. D. Skelton, Canada's expert on foreign affairs and the man through whose hands, all week, have passed the most important messages from Downing Street and Whitehall, keeping the Canadian government's hand on the rapid pulse of Europe.

"Gentlemen," said the Prime Minister, "I have had a long and tiring day. I would appreciate it if you would not bombard me tonight with too many questions."

Then the statement and at its end another smile which should have been reassuring, but wasn't. Did the Prime Minister know that at that moment the first steps were being taken in the final move to avert war? That question will never be answered.

Mr. King's carefully worded statement, and its later endorsement by the Opposition Leader, has cleared away the doubts and questionings which have pervaded Ottawa politics since the first signs of the international pot gave its first signs of boiling over. There have been those who strongly criticized Canada's Prime

FINAL BOXLA GAME AT ARMSTRONG RUFFLES CROWD'S FEELINGS

Kamloops Intermediates Fail To Send Strong Team To Compete

ARMSTRONG, B.C., Oct. 4.—Armstrong's last boxla game for this season was played in the rink on Friday, September 30, when the local boys defeated a Kamloops team by a score of 10-5. The game was one that was billed as an exhibition between the local Junior champions and Kamloops Intermediates, favorites in the provincial finals. The big crowd that attended was disappointed for instead of the Kamloops Intermediates it was a team of Juniors that turned out and they were completely outclassed.

In the first period Armstrong quickly opened the scoring. Quick Fisher buying the net in less than two minutes. Pollock, Maundrell, and Parks raised the Armstrong score to 5 before the end of the period without any reply from Kamloops. In the second period Kamloops took a bigger share in the play, scoring twice. Puoco and Persons, to F. Fisher's single for Armstrong. The third period was again mostly in Armstrong's favor. Persons scored for the visitors, then Sheardon, Maundrell, Bill Fisher, and Parks tallied to raise the local total to 10, Burnick getting the visitors' fourth goal just before the period ended. In the final period Armstrong completely outplayed and outscored the visitors, scoring six goals by Henderson, F. Fisher, Maundrell, Pollock, Parks, and P. Maundrell, who tallied in turn for the locals. Persons scoring Kamloops' last goal.

THE TEAMS
Armstrong: Watt, Dunkley, Henderson, Johnson, F. Fisher, B. Fisher, Sheardon, P. Maundrell, O. Maundrell, Parks, Pollock, Popovich, Watt.

Kamloops: Burris, Cooney, Miller, Nelson, MacElroy, J. Burnick, Latremouille, Persons, McShane, Van Hear, Brown, Puoco, Corbin.

To finish the night a dance was held in the Recreation Hall at which a good crowd attended. The Serenaders' orchestra supplied the music.

ALDERMAN WILDE'S CONDITION BETTER

Condition of Alderman A. C. Wilde, ill at the Jubilee Hospital with typhoid fever, is reported to be greatly improved over the critical period of last Thursday and Friday.

Alderman Wilde took sick three weeks ago last Saturday and was later removed to hospital. At one time his condition was quite critical, but he rallied markedly and hopes for his complete recovery are high.

Regret over his illness was expressed at Monday's City Council when six weeks' leave of absence was granted.

Reports were also submitted showing that there was no need for alarm among the citizens as a whole regarding the presence of a typhoid carrier. Water and milk samples were being subjected to tests but there had been no evidence of anything to cause public apprehension.

HORSE CARRIES MAN INJURED TO SAFETY

REVELSTOKE, B.C., Oct. 4.—Descending a steep hill with a horseman "slopp" full of wood, Waldecker Westergren, son of Olof Westergren, well known Big Bend mail carrier, was seriously injured when a four-foot stick of wood struck a tree, rebounded and hit him full in the small of the back.

For two hours he lay beside the road hoping that someone would come along the little travelled road and provide assistance. Realizing that such hope was futile, he dragged himself across the road and whistled to the horse to proceed. The animal dragged the sloop with his injured owner to the dairy farm of Campbell Bros. from which place Westergren was removed to the Queen Victoria Hospital where he is improving.

MRS. H. M. RICKETTS DEAD

OLIVER, B.C., Oct. 3.—The death of Helen Mary Ricketts occurred at Oliver Thursday noon, September 27, after a long illness. She was 47 years of age. Mrs. Ricketts was well known at Vernon having lived at Lavington and Lumby for 17 years, moving to Oliver in 1935. She was born at Bath, England, coming to the Kamloops district in 1913, and was married in Kamloops in 1916 to Frank Ricketts, of Vernon. She leaves to mourn her passing, her husband, three sons, Harold, Lawrence, and Stanley; one daughter, Mrs. John Adams; one grandson, Mr. James Adams; and two granddaughters, Mrs. M. Adams of Vancouver, Mrs. R. S. Thacker of Kamloops, Mrs. L. Walsh, South Wales; two brothers, Alex Gallagher of Barriere, and Frank, of Bath, England.

HOthouse BOARD DISSOLVED

VICTORIA, B.C., Oct. 3.—For the first time since the Natural Products Marketing Act came into effect, the government of Canada has dissolved a commodity marketing board, the B.C. Hothouse Tomato and Cucumber Board. This step followed a vote of hothouse owners against continuation of marketing control in their industry.

PLAN OSOYOOS HOTEL

OLIVER, B.C., Oct. 3.—Construction will begin at once on a new hotel in Osoyoos townsite as a result of the beer plebiscite held last Saturday. The count on the vote for the sale of beer by the glass in the townsite was 111 for 77 against, and 7 ballots were spoiled.

The hotel, plans of which are still in the hands of the architect, will be a fully modern structure of Spanish type, stucco finish, and designed to meet all the government regulations for a hotel premises. It will be built for T. S. Adams, co-ordinator of the plebiscite, who came from Penticton last June and purchased Carlson's general store.

RETURN FROM EUROPE

EWING'S LANDING, B.C., Oct. 1.—Mr. and Mrs. F. M. O. Ewing returned some time ago from an extended trip to England. While on the other side of the Atlantic, they recently left on their annual hunting trip to the Cariboo, accompanied by Mr. Lawrence. During the absence of the latter, Robin Kenyon was carrying the mail to and from Ewing's Landing.

C.C.F. Conference Calls For Action On Combine Charge

Valley Tour Of Garland's Brought To Conclusion At Penticton

PENTICTON, B.C., Oct. 1.—Oodling Moth, apple picking, and even household duties were laid aside this past week when the Okanagan national organizer for the C.C.F., and former M.P. for Bow River, Alberta.

Mr. Garland had a busy time addressing Rotarians in Vernon and Kelowna, public meetings in Kamloops and Penticton, various conferences with members of the Federation in different parts of the valley, and speaking to the Gyro Club of Kelowna and over the radio from that city.

His week's activities, however, were brought to a fitting climax when he took a leading part in a conference of members in Penticton on Thursday last, when men and women active in C.C.F. work gathered from all parts of Yale constituency to lay plans for future work, and organize for the expected Federal election.

E. Mosson, of Summerland, was responsible for arranging Mr. Garland's itinerary, and acted as secretary for the conference, which took place in the I.C.P. Hall, and was presided over by Olive Cunningham, of Penticton.

Blazed Trail Of United Church In Northern Alberta Years Ago

Rev. Dr. J. E. Duclos, Now Visitor Here, Enjoyed Successful Efforts

To have been instrumental in forming a united church for French Protestants, Scandinavian Lutherans, and English-speaking Anglicans and other denominations, in a very large section of Northern Alberta, has been the interesting life work of Rev. Dr. J. E. Duclos, of Edmonton, a visitor to this city.

Dr. and Mrs. Duclos have been visiting with their son-in-law and daughter, Dr. and Mrs. H. L. Courcier, of Vernon. They are keenly interested in the Okanagan and Dr. Duclos describes this as the prettiest city and valley he has seen. They may settle either here or in Victoria.

Dr. Duclos is a former pastor of Eskine Presbyterian, now United Church, Edmonton, but is retired from active participation in the ministry. He will address the annual Thank Offering meeting of the United Church Women's Missionary Society on Tuesday, October 11, at 8 o'clock. A cordial invitation to hear Dr. Duclos is extended to both men and women members of the United Church.

It was in 1917 that Dr. Duclos commenced his important work in Northern Alberta. He was sent by his church to survey that section of country, then practically in the pioneer stage. Feeling that the work to be done was vital and being able to speak French, his language he learned as a boy in Montreal, he resigned his post with Eskine Presbyterian Church in Edmonton to devote himself to these people.

From that period until he retired 15 years later, Dr. Duclos served as superintendent of French built churches. There was no church in his particular territory and soon after he was approached by French Protestants and Lutherans, comprising Swedes, Danes, and Norwegians, asking to become members of the Presbyterian Church. This was before the union of Presbyterians, Methodists, and Congregationalists occurred to form the present United Church.

Dr. Duclos gives an instance of just how strong the voluntary union was. An English church canon arrived in that district to settle with his son. He had funds to build an Anglican church, but was told by parishioners that they had already promised to support the Presbyterians and others. He later died and was buried by Dr. Duclos. Before Dr. Duclos retired, seven churches had been built, two hospitals, and several day-schools.

His ability to speak French was a great aid in the success of his ministry. French Canadians, though a minority, like to converse with their minister in their own tongue.

After his retirement he resided in Edmonton, where he maintained a home since first moving to Alberta 30 years ago. Dr. Duclos is now engaged in writing a book on the history of the Huguenots in France both before and after the massacre of St. Bartholomew.

A Book Review "GROWTH OF A MAN" A Story Of Successful Struggle In Canada

Mazo de la Roche has, in her most recent book, "Growth of a Man" (Macmillan, Toronto), added not only to her own reputation as a novelist, but has also done a very great deal to make the reading world aware of the background of natural grandeur that dominates Canadian life. Descriptions of winter in this country, the pictures of deep snows and Northern woods, these are things that have been often attempted, but altogether too rarely in a manner that escapes the dullness of blatant travel advertising.

In this book there is something else. There is something that is a genuine contribution to Canadian literature. There is a story that is fascinating and inspiring.

Against the strong background of Canada's forests, there is unfolded the account of Shaw Manifold's boyhood. His fight against loneliness and poverty is convincing. And his determination to conquer over all obstacles is the heart-stirring theme.

"Growth of a Man" tells of one whose life was to be devoted to the forests. But the author's power of characterization brings other figures into the plot who are dramatic accompaniments, and makes the book tremendously more than a moralistic tale.

As already suggested, it is a novel that readers in other lands will bring the best measure of pleasure. The following paragraph, at the conclusion, fittingly sums up the lonely little boy as a Canadian boy:

"The boy himself as a Canadian boy, in relation to 'Growth of a Man' are: '... with new growth to follow.'"

WRITER VISITS EWINGS'
EWINGS' LANDING, B.C., Oct. 4.—Mr. and Mrs. Shaw, of Vernon, B.C., were recently at Ewing's Landing. They left on the first of their long journey homeward, which they are making by car and boat. Mr. and Mrs. A. G. Studdy, who own the Ewing's Landing, will follow the Coast to their home by Clifton, Mr. Shaw, writer.

THREE-GROWER BOARD ASKED BY ARMSTRONG VEGETABLE PRODUCERS

Meeting Asks Set-Up Be Altered From Present —Homersham Speaks

ARMSTRONG, B.C., Oct. 4.—There was a fairly representative attendance at the meeting of registered producers of the Armstrong-Enderby-Salmon Arm Malakwa district under the auspices of the Interior Vegetable Marketing Board, on Wednesday, September 28. A. J. Heywood was called to the chair.

E. B. Homersham, chairman of the board, gave a resume of the history of the operations of the marketing board and what had been accomplished in the way of marketing control. He pointed out that the agency method possible and outlined the scheme which was being tried out as far as potatoes were concerned, and whereby the agency took payment for the stuff and provided the produce that the shipper required for the orders he handled. He said that it might be extended further.

He went into considerable detail in regard to the canning tomato deal and the board's part in the matter of negotiations with the cannery operators and the minimum wage board, and pointed out that the price set by the board was a minimum price and the grower was not compelled to accept it and he defended the board's action as having been taken in the best interests of the growers. He gave extracts from reports on controlled marketing in Great Britain and other parts of the Empire, showing what had been accomplished there in furthering the interests of the producers.

Several questions were asked regarding the operation of the Interior Board and were answered by Mr. Homersham to the satisfaction of the meeting.

W. Boss was chosen as delegate to represent the district during the coming season.

The set up of the board was the matter of some discussion in which it was pointed out that a straight three-grower board was favored in place of the present one of two growers and one shipper. It was stressed that there was nothing personal in the opposition to a shipper being on the board and the value of the work of the present shipper representative was freely acknowledged.

Ultimately the meeting unanimously endorsed a motion that the present Interior Vegetable Board be changed to an entirely three-grower board instead of the present set up of two growers and one shipper.

Mr. Homersham was accorded a hearty vote of thanks for his attendance at the meeting.

FIRST AUTO CROSSES SUGAR LAKE BRIDGE

SUGAR LAKE, B.C., Oct. 4.—The first private auto crossed the new bridge and drove a short way along the uncompleted road on the west side of the lake on Sunday. Raymond Ward, of Lumby, was the first gentleman to do this, driving to his summer camp near the old Tillamook Inn.

Mr. and Mrs. G. M. Gibson, of Okanagan Centre, spent a day fishing at the lake.

The shingle mill at the mouth of Outlet Creek, after a long period of idleness through the mid-summer, is to fire hazard, has recommenced operations.

J. G. Edwards has returned to the lake.

W. Chesterfield, forestry patrolman has left, his duties being over for the season.

Mr. and Mrs. W. L. C. Middleton, of Vancouver, spent a couple of days fishing at the lake. It was their first visit and both expressed their admiration of the beautiful surrounding, and their determination to return.

Mr. and Mrs. J. P. McLean, of Vernon, spent the week end at the lake. G. Falconer of Lumby, was also up.

A pair of "Western Grebes" were seen far out in the middle of the lake one calm evening in the week. As well as the largest, this is the most beautiful of the Grebes, with its long slender white neck, not unlike a swan's.

P. E. Harris, of Vernon, was up to the lake for the day at the end of the week.

E. Sullivan, of Sugar Lake, was down to Vernon.

Colin Curwen, of Kalamalka Lake was a visitor to the lake during the week. Dr. E. W. Prowse was also up for the day.

MARA NEWS ITEMS
MARA, B.C., Oct. 4.—Mr. and Mrs. J. R. Campbell, of North Vancouver, have been spending the past week in Mara visiting old friends.

Victor Witla, who has been sick for several months in the Vancouver General Hospital, has been spending the past few weeks at his home here. He is returning to hospital this week, where he will resume the X-ray treatments which have proved so beneficial to him. His many friends in this district wish him a speedy recovery.

Mr. and Mrs. E. A. Robertson and son, Freddy, spent last Friday in Vernon visiting their daughter, Mrs. Monty Stepp, who is being congratulated on the birth of a daughter, in the Vernon Jubilee Hospital last Thursday.

Miss E. Langdon, of Pasadena, Cal., returned to Mara last week, after an absence of many years, to renew old friendships and to look over her property here. Miss Langdon is the guest of Mrs. M. Moser this week.

Members of the choir of St. Matthews Church, went to Grindrod last Sunday, where they attended the harvest festival service held in the Anglican Church there. Arthur Bach and Nora Haver, left on Sunday for Cherryville, where they hope to obtain work, with their mill, after working for the past several months on the Mara-Sicamous road, making the

EVENING FROCKS

FIRE *Prevention* WEEK

OCTOBER 9 to 15

A Message from the Mayor

BEN DICKINSON
Fire Chief, Vernon

FIRE CHIEF MAKES STATEMENT ON FIRE PREVENTION HERE

As Fire Prevention Week opens October 9, as Chief of the Vernon Fire Department, I urge the co-operation of all citizens of Vernon, in making this week a success, says Chief Ben Dickinson.

His statement follows:

While there are many ways in which citizens can assist in this good work, I would suggest a general survey and clean up of homes and business premises. In this way they can be of invaluable service to this department and also make a great contribution towards preventing, thereby helping themselves, particularly in the matter of fire insurance rates. I would advise that they make a check of possible fire hazards in their homes. Among some of the more frequent contributory causes of fire are faulty electrical wiring and electric fixtures. Flues should be cleaned out before cold weather sets in.

This type of co-operation will be much appreciated, not only during Fire Prevention Week, but at all times during the year.

Fire causes needless loss every year of about 10,000 lives and hundreds of millions of dollars worth of property. Fire Prevention Week is observed throughout the United States and Canada and is to call public attention to the seriousness of the fire waste and to show how damage may be prevented. This week, now observed by royal proclamation, is the anniversary of the Great Chicago Fire of October 9, 1871, when according to popular legend, Mrs. O'Leary's cow kicked over a lantern. Over 200 lives were lost in this disaster.

Fire destroys lives, homes, and jobs and places a tax on everyone. Property loss from fire for 1937 in Canada amounted to \$22,746,058, in B.C., \$2,144,078, and in Vernon, \$2,439.65.

TAX LOSS

Municipal and state improvements depend upon taxes for their sustenance. When a building is burned it can no longer be taxed and the tax it would have produced is paid by the remaining taxpayers, so that this year in Canada, \$22,746,058 will be paid by others because of last year's fire waste.

It is impossible to estimate the economic loss which comes as a result of fire. It includes all interruptions of business and loss of contracts. It stops the pay cheque for the employees and frequently causes serious hardship in the home of the working class. Since a care-

Fire-Prevention Week will be held from October 9 to 15. Owing to serious illness, Alderman A. C. Wilde, chairman of the Fire Committee, will be regrettably unable to participate in this Dominion-wide effort to further fire-prevention in homes as well as in public buildings. Therefore, at the request of The Vernon News I will offer a few remarks in his stead. Vernon, like many a town of similar size, possesses a volunteer Fire Brigade, which very efficiently and effectively responds to the call of the fire siren. The crews spend a great deal of time practising and studying the latest methods of fire-fighting in order to be fully prepared to save our homes and other premises from destruction by fire, and we thank them sincerely for their efforts in the past. Yet, it is our duty as citizens to help them in every way to keep down fire losses. Fire Prevention Week is an annual attempt to make us increasingly precaution-conscious.

The city itself provides anti-fire measures. Our Fire Marshal, who is also Fire Chief, sees that fire restrictions with regard to the erection of new buildings are carried out. He is also on guard to see that buildings are not over-crowded at public functions and that rules and regulations regarding fire prevention are observed.

As a city, our fire hazard is getting less, as fire-proof buildings are erected in the business section, brick and stucco houses are being built to a greater extent and old frame buildings are being torn down. These are the wider measures taken for fire prevention.

Carelessness Cause

From this point, every citizen must take over his share of the burden for his own sake. Most fires are the result of carelessness—gasoline near a fire, oil used to speed the lighting of a fire, of thoughtlessness—letting a child play with matches, of inadequate precautions, such as defective wiring in the home. Think of the disastrous consequences from such small cause. A home is destroyed, cherished possessions are irretrievably lost, and all too often, precious lives are lost, with attendant tragedy and heartbreak. Think also of the pecuniary losses. In many cases, the home represents many years of saving on the part of its owner, a loss usually covered only partially by insurance. Fire eats up many thousands of dollars per year.

Insure The Home

Most home owners insure their homes. It is well, therefore, to remember that greater precautions against fire means fewer fires, and fewer fires means lowered cost of insurance.

Fire prevention week is recognized as one of the most meritorious campaigns each year, educating people to be careful of fire.

Therefore, we would urge every man, woman and child to be constantly alert in guarding against fire. It will cost nothing and take very little time to think, and act, positively for fire prevention. Double precautions and safety measures. Let us not have to regret our negligence through painful losses.

A. C. WILDE
Chairman of Fire Committee

Defective chimneys and flues were responsible for the loss in Canada of \$2,288,014 last year by fire. Stoves, furnaces, boilers and pipes, caused a loss of \$1,949,761. These fires are entirely preventable. Chimneys can be built right, kept clean and in repair. Heating apparatus can be installed at no increased expense so that it will never cause fire.

Spontaneous ignition is given as the cause of fires costing \$201,429. Many of these fires originated in oily or paint-smears, oil rags, and the like. These fires can be prevented by not allowing oily rags to accumulate and by keeping mops in metal boxes. Sparks on roofs destroyed property worth \$937,671. These losses are wholly preventable by the use of fire retardant roof coverings.

Electricity and electrical appliances caused a loss of \$1,945,853. Of all these fires 46 2/3 percent were due to carelessness with electric flat-irons. Much of the remaining electrical loss was the result of improper wiring and overloading of circuits. Electrical fires are largely preventable by proper wiring installations and by care in the use of irons and other electrical devices. Only 4 percent of electrical losses are found in buildings wired according to the National Electrical Code.

Where these fires take place. Over 60 percent of the number of fires take place in houses, which means a home fire for every four minutes. Each day of the year an average of 5 schools, 5 churches, 15 hotels, 4 warehouses, 96 farms, 6 department stores, 2 theatres, 8 public garages, 3 printing plants, and 3 dry goods stores are burning. A knowledge of the above statistics should secure the proper co-operation from the homes and from the business places for the bettering of conditions, both in construction and equipment.

In Vernon this year so far, the department has responded to 25 alarms, with a loss of \$2,439, this loss was incurred at eight of the fires through absolute carelessness, four being from cigarettes, one from wood shavings too close to stove, two hot fat fires, and one by hot ashes in wooden box. These eight fires cost the taxpayers of Vernon about \$400 for fire fighting services, which was unjust to the careful citizen, and I do not think the time is far distant when if the fire is proven to be caused by negligence, the party concerned should at least pay for the fire fighting service.

DO'S and DONT'S To Prevent Fires

Electrical Dont's

- DON'T use defective appliances.
- DON'T use defective outlets.
- DON'T substitute pennies for fuses.
- DON'T use defective extension cords.
- DON'T forget to disconnect irons and toasters when not in use.
- DON'T use old fashioned wiring, bring it up to date, you'll benefit.
- DON'T drop lighted matches. At home use deep ash trays.
- DON'T use explosive cleaning fluids.
- DON'T let rags that have been used for oil or paint accumulate.
- DO the right thing when a fire starts. Call the Fire Dept. The number is 210.
- DO away with all old fashioned articles that are potential fire hazards.
- DO your part to teach your family and employees the danger of fire.

ful survey of statistics indicate that 87 percent of all fire loss is preventable, this hardship and economic upheaval is needless.

Because of fire we must maintain fire departments, large water supplies, elaborate fire alarm services, etc. These cost an amount as large as the fire loss. Were the fire loss less, this cost could be proportionately lowered. The annual fire loss in Canada is \$1,95 per capita in British Columbia, \$0.25 per capita

for the past year.

It is the general impression that every time the fire bell rings, one or more insurance companies suffer loss. This is partially true, but the loss sustained is only for a temporary period. Insurance companies are but collectors and distributors of the fire loss. They pay the losses as they occur, thus enabling the re-establishment of business.

FIRE CAUSES

The predominating causes of fire

as reported by the Board of Fire

Underwriters are: Matches, cigars, cigarettes. These were responsible for fire loss in 1937 of \$2,070,448 in Canada. This can be prevented by the development of careful habits with matches and smokes. Good housekeeping, which prevents rubbish accumulations, and proper physical safeguards around the handling of inflammable and explosive substances, can add in prevention.

EXPECT NEW FERRY WILL BE BUILT IN KELOWNA IN DECEMBER

KELOWNA, B.C., Oct. 1.—That construction of the new ferry will commence in Kelowna about the first of December was the information received recently. This report, if it can be verified, will set to rest the rumor which had grown in strength during the past month that the ferry would not be proceeded with this year.

It is understood that Roy Stewart,

a representative of the Western Bridge Company, of North Vancouver, which was awarded the contract by the department of public works, was a visitor in Kelowna this week. The trip was made for the sole purpose of inspecting the available sites on Okanagan Lake where the craft might be constructed. After inspecting available sites at Okanagan Landing, Kelowna and Penticton, Mr. Stewart decided that the logical place to build the new craft was in Kelowna.

ADVERTISING DISCUSSED BY GROWERS HERE

Vernon Local Asks Benefit
Of Levies Be Given To
Particular Fruits

Vernon Local of the B.C.F.G.A., meeting Wednesday evening in the Fruit Union Hall, held a lengthy discussion on advertising policies as proposed by the Tree Fruit Board, and in the feature move of the meeting asked that the board be authorized to deduct an advertising levy only from such varieties of fruit as could obviously obtain direct benefit.

Gordon Robison, sponsor of the resolution, said that it was not his intention to oppose advertising of Okanagan fruits. What he did object to was having such early produce as Wealthy apples, crabapples, prunes, and pears, grown largely in the northern sections of the valley, pay part of the advertising costs for late winter apples in any campaign contemplated.

Any advertising scheme applying to this year's marketing effort would apparently affect only those fruits that will be going into consumption later.

Early varieties of apples such as Wealthies, Mr. Robison continued, and soft fruits also, need advertising on the domestic markets, "but not one cent has been spent on these this year."

"The very stuff that least can afford a levy to aid advertising of other fruits has been sold at a price this year that is barely, if at all, above cost of production and without advertising."

The three members of the Tree Fruit Board, Chairman W. E. Haskins, O. W. Hembling, G. A. Barrat, were in attendance and spoke briefly on this resolution. They favored advertising all fruits, but pointed out that difficulties were apparent.

One of these, Mr. Haskins pointed out, was that uncertainty over the Board's future each year made it impossible to plan an adequate campaign during the proper time of the year, June and July. Now that legal difficulties threatening part of the Board's powers had been removed, something in accord with the resolution would certainly be adopted.

Ensuing discussion centering in this resolution occupied more than an hour at the meeting and many divergent opinions were expressed. P. V. LeGuen, president of the Vernon Local, was of the opinion that the Board could not conduct advertising as directed by the resolution. Passage of Mr. Robison's resolution, seconded by W. E. P. Woods, was unanimously being agreed that the principle outlined and not the actual wording is the important feature.

The resolution follows:

"Whereas the levy of 1 1/4 cents per box on apples and pears and 2 1/2 cents per box on stone fruits will realize an amount greatly in excess of operating expenses of the Tree Fruit Board and whereas the surplus above the operating expenses of the said Board is to be used for advertising purposes, and whereas a large percentage of fruits such as apples, pears and crabapples and stone fruits have been marketed without benefit of advertising, therefore be it resolved that the Tree Fruit

MANY DOCTORS AT MEETING IN KELOWNA

KELOWNA, B.C., Oct. 4.—Thirty medical doctors from Revelstoke and Kamloops in the north, as far south as Silver and west to Princeton gathered in Kelowna on Monday, October 3, for the annual meeting of district No. 4 of the Canadian Medical Association, B.C. division.

Those registered were: Dr. and Mrs. A. L. Jones, Revelstoke; Dr. and Mrs. J. C. Willoughby, Dr. P. P. McNamee, Dr. P. S. Tennant, Kamloops; Dr. G. F. Kincaid, Trail; Dr. and Mrs. R. A. Shotton, Armstrong; Dr. and Mrs. A. W. Vanderburgh, Summerland; Dr. Borden, Dr. and Mrs. L. F. Broden, Dr. and Mrs. V. E. Latimer, Dr. and Mrs. J. R. Farnley, Dr. H. McGregor, Dr. Roy Walker, Penticton; Dr. and Mrs. O. Morris, Vernon; Dr. and Mrs. R. J. Wride, Princeton; Dr. and Mrs. J. Ball, Okanagan Falls; Dr. B. F. Boyce, Oliver; Dr. B. S. Henderson, Dr. and Mrs. W. J. Knox, Dr. and Mrs. L. A. C. Pantou, Dr. and Mrs. A. S. Underhill, Dr. Beba Willis, and Dr. W. F. Anderson, Kelowna.

Board is authorized to deduct any levy for advertising only from such varieties of fruit as will benefit from the advertising, the levy covering early fruits to be based on the actual operating costs of the said board during the past two years."

A second resolution on advertising was offered by Russell Haggie and accepted by the meeting after little debate. This motion, in brief, asked that before an advertising campaign be launched, it be submitted for approval to the growers.

This course, Mr. Haskins bluntly declared, was not possible at all. He outlined the method by which the Board selected an advertising agency for a campaign. He urged that all locals study questions of advertising, and Mr. Hembling said he thought this a fit subject for discussion at the annual meeting of the B.C.F.G.A.

At the opening of the meeting President LeGuen said that it had been called at the request of certain growers. As each topic listed was reached on the agenda, he called for resolutions from the floor. On the question of Creston being exempted from regulations of the Tree Fruit Board, no one in the audience of about 45 rose to speak. Mr. LeGuen was preparing to pass on to the next item when Mr. Haskins volunteered to comment.

He gave a lengthy resume of the Board's reasons for not including Creston, Grand Forks, Kamloops, and the upper Arrow Lakes country in the cartels and regulations. Principal reason advanced was the fact that these districts have no cold storage facilities, so are forced to sell their fruit almost immediately after it is packed.

Included in Mr. Haskins' remarks was also a summary of the reasons why he went to the Old Country to attend the hearing of the validity of the B.C. Products Marketing Act. This he gave after C. M. Watson, of Goldstream, stated that he, Mr. Haskins, had not been asked to attend, nor had the grower-delegates electing the Board been notified.

Mr. Haskins gave it as his opinion that the Board's arrangements for marketing this year's crop, to be enforced within a few days, would eliminate much of the trouble experienced over Creston and other areas outside the valley and would definitely stabilize prices.

Manitoba Ducks Give Gable A Break

Clarke Gable, left, with his guide, Rod Ducharme, trudge to the marsh at Delta, Man., as dusk falls. The film actor got his full limit of 12 fine canvases on his first shoot in the Manitoba duck belt.

Gambling Concessions Warmly Attacked By Local Board Of Trade

Travelling Shows Come Under
Fire At Session
Held Here

Vernon Board of Trade, at its opening autumn meeting in the National Hotel Tuesday evening, endorsed a resolution asking the City Council "to eliminate the gambling concessions that accompany travelling shows" visiting here.

A resolution to this effect was moved by J. B. Woods, seconded by Geoffrey Whitehead. Asked by President H. W. Galbraith to give his views on these travelling shows, Mr. Woods said that the type here this summer were "just straight gambling booths." Their operations, he added, are contrary to law. He had been told by the police that all they wanted to stop this gambling was word from the Council, which had not been given.

It was pointed out that objection was made only to the gambling devices but not to operation of straight amusement booths and concessions.

In opening the meeting, President Galbraith expressed the hope that members present had enjoyed the summer holiday period, during which no meetings had been held. Business had been attended to by the Board's council, Capt. H. P. Coombes, secretary, read extracts from lengthy files of correspondence, showing the stand taken by the board on the tomato canning situation of August and the relief workers project union march of July, among other matters.

In the absence from the meeting of School Trustee F. G. deWolf, it was decided to defer discussion of the need for a travelling nurse.

D. J. Robison, on behalf of the Okanagan-Cariboo Trail Association, reported that the deficit realized from the showing of a motion picture here had been made up through contributions from merchants and others. This show had been sponsored by the Junior Board of Trade and the true association, but had gone behind some \$700. A letter of sympathy from the Board of Trade secretary to Mrs. I. V. Sauder was read and endorsed by the gathering. It was also decided to write to Mrs. A. C. Wilde, editor of the hope that Alderman Wilde would make good progress towards recovery.

Teachers

(Continued from Page 1)

hold discussions with Inspectors A. B. Matheson and T. C. Carter. Twenty teachers will have their speakers Miss M. James, of Victoria Normal, and Miss H. S. Dalloy, of Nanaimo.

The manual training instructors will hear and discuss pertinent questions with P. T. Falvey, the technical supervisor for the province, while the home economics group will have for their address Miss C. B. Black, of the King Edward High School, at Vancouver. The health teachers and school nurses will be provided with a speaker from the Extension Department of the University but to date the committee in charge have been unable to announce who the speaker will be.

During Friday, all teachers will assemble to hear addresses from A. R. Lord and T. R. Hall, of the Vancouver Normal. These two men are among the noted educationalists in the west, they will as in the past give all teachers many inspirational ideas.

The convention will conclude on Saturday afternoon with a full business meeting pertaining to Penticton affairs. J. Burnett, of Vancouver, will be the feature speaker at this meeting and will give a full account of Federation activities for the past year.

All teachers throughout the district are urgently requested by the committee in charge to send in early all problems both business and professional which they wish discussed and clarified. This will solve considerable printing difficulties and enable the committee to have all meetings well on schedule.

Export Prices

The following cable has been received from Fruit Commissioner W. B. Gornall, London, England, relative to B.C. apple prices:

Manchester: Wealthy, ex. fancy, 7/3; fancy, 7/6 - 8/6; McIntosh, ex. fancy, 9/3 - 10/6; fancy, 9/- - 10/-; Wealthy, fancy, 8/- - 8/3.

ENTOMOLOGY STATION MAY BE ESTABLISHED IN KELOWNA DISTRICT

Dr. James Marshall, Noted
Entomologist, To Be
Placed In Charge

KELOWNA, B.C., Oct. 5.—Dr. James Marshall, professor of entomology at Washington State university, has been appointed by the Dominion government as entomologist in charge of a new station which is to be opened in Kelowna. Appointment was made last week and it is expected that Dr. Marshall will be in the Okanagan shortly.

Dr. Marshall is a young Okanagan man who has risen to prominence in his profession, and is recognized as one of the most prominent entomologists in the northwest. He is the son of G. D. Marshall, manager of the Okanagan Valley Land Co., at Okanagan Centre.

As soon as it was known that applications for an entomologist were being asked, the Kelowna Board of Trade wrote the federal minister of agriculture pointing out the advantages of having the station established here and informing him of facts about Kelowna. It is believed that the station will come to Kelowna.

VERNON HORSES IN RACES AT ASHCROFT

Feeling satisfied with the performances displayed by his two horses at the Ashcroft Race Meet last week, Mr. J. H. Myron, of Kelowna, returned to this city on Saturday with two seconds and a third prize and a new horse. His racer, Picturina, showed well on Const course this summer and noted his new owner a second in the Ashcroft Derby and a second in the six furlong, Ginny Mine, Myron's second horse, showed third in the Derby, George Anderson's Duke Paul, the only other local horse entered, nabbed a second in the six furlong and first in the consolation race.

OUTBOARD MOTOR IS STOLEN NEAR OYAMA

P. H. Aldred, of Oyama, reported to the Provincial Police last week that the outboard motor from his boat anchored in Woods Lake had been stolen on the night of September 28. Some men who had been sleeping in the "jungle" near the lake claimed that they heard a car stop near them during the night and it is believed that it may have belonged to the thieves.

CATHOLIC HALL OPENED
KELOWNA, B.C., Oct. 1.—On Friday evening, September 30, nearly 500 proud parishioners of the Immaculate Conception Parish, Kelowna, entered the new St. Joseph's hall to participate in the opening ceremonies. Present as speakers were His Excellency Bishop Martin M. Johnson, Bishop of Nelson, His Worship Mayor O. L. Jones, Rev. Dr. R. McKenna, W. A. O. Bennett and David Chapman.

CAMERA CLUB'S PRIZE WINNERS ANNOUNCED AT PLEASING SOCIAL

New Fall And Winter
Schedule Organized
By Members

Members of the Camera Club and their friends numbering 30 gathered at the Women's Institute Hall on Friday last to enjoy a social organized by the club in opening the new fall and winter schedule. Chairman of the evening, Ralph Bulman, speaking in place of President Max Ruhmann, outlined the past season's activities and announced the future policy and aims and objects of the club.

In order to interest new members a scheme has been suggested whereby a series of talks dealing with the rudiments of photography will be given by several competent speakers. This arrangement should prove of particular value and interest to the strict "camera clicker" who feels that he does not know enough about his camera or its operation to even enter into the amateur class. The purpose of these talks is to enable these people to learn the basic rules of good picture taking, and how to eliminate their most common faults so that they will soon be able to qualify with the club's slogan of "taking more and better pictures."

During the evening the prize winning prints were displayed and the winners announced for the summer competition recently completed. The judges were the President, Max Ruhmann and G. S. Layton, and the winners in all classes included the Misses Anne Bowman, Helen Grierson, Stella Pearson, Ivy Winter, and Joan Wiseman. And Ralph Bulman, Russell Hamilton, R. W. McIndoe, and Harold Wilkie.

The program of entertainment included several hundred feet of amateur movie film taken by the movie members of the club, Douglas Kermode, Frank and Steirn Pearson, and Don Smith. Much of this film was taken in natural color and depicted holiday scenes at Bowen Island, the Okanagan Landing Regatta, garden shots and a trip to Revelstoke Mountain.

Music for the evening included several delightful self-accompanied solos by Miss Maybelle Robertson, and saxophone and musical saw selections played by Spencer Muckie. Camera enthusiasts interested in joining the club are asked to get in touch with Douglas Kermode or the secretary, Russell Hamilton, as the new lecture series will commence about the middle of the month. Any prospective member who would like to join the next camera club hike to Otter Bay on October 10, is cordially invited.

BIBLE WOULD BRING PEACE TO ALL SPAIN

Rev. Nelson Harkness Is
Lecturer In United
Church Here

The Rev. Nelson A. Harkness, B.A., B.D., secretary of the British and Foreign Bible Society in British Columbia, addressed a fair sized audience in the United Church on Wednesday evening on the story of "The Tragedy in Spain."

Before commenting on the topic of the evening's address, the speaker stated that the British and Foreign Bible Society has had one of its best years in its 134 years of existence, during the past twelve months. Eleven and one half million copies of the scriptures had been sold during the past year and the largest number of complete Bibles ever sold in the world's history have been distributed. Another feature of this great sale is the fact that the Bibles were printed in 1,015 different languages and dialects.

In opening his story, Mr. Harkness stated that the address would follow the progress of George Burrows who began the Society's work in Spain over 100 years ago. Through the use of lantern slides he showed where Burrows had gone when he began his work and then made a comparison of conditions then and today.

As his address went on he also showed how the activities of the Society have not been affected by the war that is being waged at present and how they have received the fullest co-operation and help from the Loyalist Government. "As the knowledge of the Bible spreads we can only hope that the people of Spain will see their way to peace," Mr. Harkness stated as he summed up a great part of the Society's work.

Town and District

Mr. and Mrs. T. E. Yull returned on Saturday after a week's visit at the Coast.

J. F. Watson returned to Vancouver this week after several days spent visiting in this city.

Mrs. William Beswick returned to her home here on Saturday after a few weeks spent visiting in Vancouver.

Mrs. J. E. Leslie returned to her home here on Monday after spending a short visit with her parents, Lieut.-Col. and Mrs. A. Leslie Coote, before their departure for England this week.

Marcel Godfrey Isaacs left on Monday evening for Paris, France, where he will continue studying art during the winter months. He is expected to return some time in the spring, probably in April.

Mrs. Hector Richmond and her small son returned to their home in Winnipeg on Monday after more than a month spent visiting here at the home of Mrs. Richmond's parents, Mr. and Mrs. H. Pout.

Anton K. Mooney, of the B. C. Chamber of Mines, Vancouver, accompanied by his wife and two sons, has been a visitor in this city during the past week. Mr. and Mrs. Mooney are at present planning to take up residence here.

Mrs. A. B. Holmes and her daughter, Mrs. Frank Lyons, and son, of the Northwest States, returned to the prairies on Monday evening after a month spent visiting here at the home of Mrs. Holmes' son-in-law and daughter, Mr. and Mrs. A. Werner.

Mr. and Mrs. Peter Lawrence and Mr. and Mrs. F. E. Haines, of Ewing's Landing, returned this week after two weeks spent on a hunting trip to the Cariboo. They state that the hunting was very good and that they made a satisfactory "bag" during the trip.

E. B. Townrow returned to this city on Saturday after more than three weeks spent visiting in Saskatoon. Mr. Townrow states that conditions in and around Saskatoon are excellent and that the farmers and residents of the city are looking forward to better times.

Most Rev. Bishop Martin Johnson, of Nelson, was a visitor at the rectory of the Roman Catholic Church here on Thursday of last week. While in this district he visited in Lumby and then continued on to Kelowna where he attended the opening of a new church hall.

At the regular weekly meeting of the 1st Vernon Troop of Boy Scouts, on Tuesday evening, six Cubs of the 1st Vernon Pack "went up" into the Troop. The Cubs were: Senior Siker Junior Livland, Siker Jack Burnham, Jim Renfrew and Ellis Lindsay, and Cubs Rodney Garrett and Clarence Hamilton.

W. L. Wilde, of Toronto, arrived in this city during the week to visit the home of his brother, Alderman A. C. Wilde. Mr. Wilde hopes to remain in this city as long as he possibly can in order that he may be near his brother during the most serious stages of his present illness.

W. L. Seaton returned to this city on Monday morning after having represented W. R. Pepper at the meeting of the executive of the B. C. Teachers' Federation, held in Vancouver over the week end. At this meeting, Miss Hilda Cryderman, of this city, was elected to the executive of the Federation for the coming year.

To kill a grizzly bear with three shots from a high power 22 calibre rifle was the experience last week of Price Anderson, son of George Anderson, well known Swan Lake rancher, while on a hunting trip to the Cariboo. Price shot the bear with his accurate shooting and the hide was brought to this city as a trophy. Other members of the party were "Bud" Anderson, Ed Asp, and Oscar Anderson, who is the Anderson boys' uncle. They tried to hunt moose but report that, unlike last year, these stately monarchs of the upper country are extremely hard to find. "You won't see one out in ten with a moose on his back," Bud Anderson declares. "There's lots of Americans up there with guides and money to burn and they can't find moose." Making up for this lack of big game are thousands of geese, ducks, and prairie chicken, and of course lakes teeming with fish. The party drove over the flat Chilcotin country near the famous "Gang Ranch" and secured their quotas of prairie chicken quite easily.

The North Okanagan Teachers' Association held their first meeting of the 1938-39 year on Friday evening, of last week, with over forty members present from different schools throughout the North Okanagan. The business of the meeting comprised three main items, the report on the meeting of the B. C. Teachers' Federation executive at Vancouver, by M. Clay, of Armstrong; the consideration of the resolutions to be brought before the Federation's meeting in Penticton this month; and the election of officers for the coming year. The results of the election were as follows: President, J. P. MacLeaud, Vernon; Vice-President, G. Paulk, Ver. Ruby; Secretary, Treasurer, M. Clay, Armstrong; Miss Ethel Asher, Coldstream, and Miss Margaret Calbiek, Armstrong, are district representatives.

SPECIAL..

John McCulloch was a business visitor in Vancouver last week.

Miss Winnifred McLeod returned this week from a ten day holiday visit to the Coast.

Word has been received here that Jimmy Bradley, formerly of Vernon, has been accepted for training by the Royal Air Force in England.

Mrs. P. Daem and Mrs. S. Litva left on Monday evening for Vancouver, where they will attend the convention of the Catholic Women's League to be held in the Hotel Vancouver.

Mr. and Mrs. Otto Ludwig, residents of this city for the past nine years, left on Wednesday evening for East Prussia, where they will continue more make their home. Their son and daughter are remaining in this city.

Dr. Frank Pettman and F. G. deWolf returned on Monday from a five day hunting trip in the Cariboo. The weather was too warm, states Mr. deWolf, and as a consequence the hunting proved to be very poor. Neither of the men secured a successful bag.

Mrs. C. S. Dent arrived in this city from Vancouver on Sunday to spend a visit here at the home of Mr. and Mrs. R. G. Kearney. Mrs. Dent is not sure how long she will be staying here but will in all probability remain for another week at least.

Constable and Mrs. W. Oils, of Red-Pass, will be visiting in this city for the next two weeks as the guests of Mr. and Mrs. R. A. Ferguson. Constable Oils was for some time stationed in this city as a member of the local detachment of Provincial Police.

Mrs. Theresa Grandbois returned to her home in this city on Friday after three and a half months spent travelling in Washington, Montana, California, and Mexico. On the return trip she stopped in Los Angeles and from there took a boat to Victoria where she visited before returning to Vernon.

After a holiday trip that was to have taken two weeks and ended through the Northwest States, Mr. and Mrs. W. R. Morris returned to their home at Kalamalka Lake on Friday of last week. They stated that travelling conditions were excellent in the States and that they had a very enjoyable vacation.

Mrs. J. Kneen, of Nanaimo, spent a short visit at the home of Mr. and Mrs. J. H. Watkin last week while on her way back to the Coast from attending an I.O.P.E. convention in Penticton as representative of the Nanaimo branch of which she is president. Mrs. Kneen, who for a number of years was a nurse on the staff of the Vernon Jubilee Hospital, is better known in this city by her maiden name, Miss E. Hogarth.

The Vernon Golf Club was the scene of an inter-club match between the local golf club and Kelowna Club and a team of local players on Sunday. At the end of the day's play the Vernon golfers were adjudged the winners with 40½ points to Kelowna's 30½. Next Sunday, members of the local golf club will meet in the final contest of this season, the 36 hole match play for the Waterloo Cup. This trophy, which has been played for annually for the past six or seven years by mixed foursomes, was won last year by Mr. and Mrs. H. A. Nolan.

The Vernon Civic Arena has been the scene of many varied forms of amusement and on October 21, it is adding to this record with a large card of professional boxing and wrestling. K. W. Kinnard, chairman of the Arena Commission, states that the entire proceeds of the exhibition are to be donated to the B. C. Crutches Club, a well known local boxer, has arranged through the Vancouver Sports Club a first class card of fights. The main feature will be a ten round boxing bout between "Frankie" Beaudet, of Montreal, who has been judged the third ranking lightweight in Canada by the Boxing Commission, and Sonny Griffiths, a well known Coast fighter. Besides this a number of wrestling and boxing bouts will be arranged which should give the fans a fair share of thrills.

Victor Armand, theatre construction engineer with the Famous Players Corporation, was a visitor here on Thursday and Friday of last week when he inspected the building of the new Capitol Theatre.

MAY USE SKAHA LAKE BEACH FOR SEAPLANES

PENTICTON, B.C., Oct. 5.—Question of obtaining a certain portion of the Skaha lake beach for seaplane landing facilities has been taken up by the Penticton council with the Indian department, as the required land is situated on the Indian reserve.

The Indians holding the land in question had been approached by the council, but had named a price which the council considered prohibitive. At Monday night's council meeting a communication was read from D. McKay, asking the council to take the matter up with Indian Agent J. Coleman, of Vernon.

If Mr. Coleman and the council are unable to come to satisfactory terms with the holders of the property, then Mr. McKay, who holds the position of Indian Commissioner in British Columbia, or a representative, will visit Penticton.

It is expected that Mr. Coleman will be in Penticton within the next week or so and the entire matter will be discussed at that time.

KELOWNA BUILDING PERMITS ARE HIGH

KELOWNA, B.C., Oct. 5.—Another \$10,000 is being spent in Kelowna in building new residences and additions and repairs, as the September total for the year reaches \$117,740, a figure which is only \$17,000 off the big total of 1937, which represented a record for the past decade.

The September 1938 permits amounted to \$9,860, while those of September last year were \$7,950. The 1937 total up to September 30 was \$135,000, which included the new post office construction. This year's total has been boosted considerably because of the many new residences being erected in the city.

Two new homes were started last month and it is anticipated that other new residences will be commenced before the freezing weather of late November or December stops active construction.

"JOY-RIDE" PLACES JUVENILES IN TROUBLE

PENTICTON, B.C., Oct. 5.—A borrowed car and a subsequent joyride landed three juveniles into the toils of the law this week. Two were charged with driving without a license prior to being brought to Penticton.

On Tuesday the three appeared in juvenile court in answer to the charge. It was alleged they had taken a car belonging to Pete Anderson, without the owner's consent, and had travelled in it to Oliver. All it is alleged had been in trouble previously. In giving evidence in connection with the case Corporal W. J. McKay said that parental supervision and control was apparently lacking in many homes in Penticton. This was concurred in by the officers of the court.

JUVENILES FINED FOR GAME ACT INFRACTIONS

KELOWNA, B.C., Oct. 5.—Boys have again appeared in juvenile court before Judge J. P. Burne this week, two paying \$3 fines for catching Kokanee during the closed season. Another juvenile paid \$10 and costs for carrying firearms without a licence. Since Game Warden W. R. Maxson clamped down on juvenile offenders who were violating fishing regulations by catching Kokanee in Mission creek, there has been a let-up in such activities.

Mrs. A. J. Perey and her youngest son, Arthur, arrived in this city last week to spend a visit at the home of Mr. and Mrs. W. E. Pickford, at their home in the Coldstream.

Members of the ladies' section of the Vernon Golf Club played an inter-club match with a team of 12 Kelowna golfers here Wednesday, defeating the visitors 14 points to 7.

After a recess of approximately four months, the Provincial Recreational Centres are expected to resume activities early in November according to present plans, states W. O. Ladner, the local instructor. The Vernon centre, which had a very successful season last year, will be again under the direction of Mr. Ladner with Miss Patricia King and Arthur Chetwynd as assistant instructors. Jack Lynes is the supervisor of the Okanagan Centres, of which there are nine registered at present. It is hoped that Vernon will have as successful a year as last and according to present indications the interest already shown by the youth of the city will make it so.

WILKINSON STATES HE WILL NOT RETURN TO VEGETABLE BOARD

KELOWNA, B.C., Oct. 1.—Thomas Wilkinson, former member of the Interior Vegetable Marketing Board, has explained why he resigned when the other two members of the Board decided that a second drop of one dollar per ton in tomatoes would have to be made this year, in order to have canneries operations. He made his statement at the meeting of vegetable producers in Kelowna on Tuesday evening, called under the vegetable control scheme.

"We offered to make a reduction of one dollar per ton if labor cut as well, and the Board of Industrial Relations refused," he continued, reviewing the situation which then arose. The vegetable board cut again but it was not until some time later that the minimum wage board at last agreed to reduce minimum wages ten percent. In the meantime, Mr. Wilkinson, believing that the only solution was to force a showdown, resigned his position in protest to the second dollar per ton cut.

"I wasn't any too pleased with the attitude of the business men of Kelowna or the Board of Trade," he continued, referring to the discussions he had had with the latter organization, which had not been willing to come out and advocate a reduction in minimum wages.

"If marketing control does not do any more for you than it has with the canneries then it is not much use. Don't think that I mean to do away with the board, but we must change the scheme and take hold early in the year. There is no use planting tomatoes and waiting two years for your money."

"I think the board made a mistake in not putting its foot down and stating that it would go no farther than a fifty-fifty reduction with labor."

The views of the Board majority were given by R. B. Homersham, who said action had been taken in such a way as to create a canning deal when there was grave risk there would be none at all.

Delegates appointed to attend the convention in Kelowna on November 7, when the new Board personnel will be elected, were H. B. D. Lyons, M. W. Marshall, and Fred Munson. Mr. Wilkinson said he would not consent to returning to the Board.

PENTICTON TO SKATE

PENTICTON, B.C., Oct. 5.—Question of the improvement of winter sport in Penticton came in for considerable discussion at Monday night's council meeting. The possibility of making Arassok pond safe for skating and curling, took up a major part of the interest.

Hope to Have New Plan By October 17

That the new single agency plan will be working a week from Monday was the hope expressed by O. W. Henning, member of the B. C. Fruit Board, when interviewed by The Vernon News this week. He said that a special man will be placed in Vernon to expedite the routine.

GROWERS CONTEMPLATE DEMAND FOR AN ACCOUNTING

COMPLETE accounting of the sales of their fruit can be demanded by growers under the Sales on Consignment Act. At least this is the opinion of those who are contemplating such a demand upon shippers who have been handling their fruit.

Some shippers are believed to look upon the request for such an accounting as an unfriendly act. It will put them to expense and probably to a great deal of inconvenience. However, growers who are in a position to make such a request need not be troubled on that account. They deliver their fruit to the shipper through whom they are selling and in his hands and under his orders it is packed, stored, shipped, and sold. Returns are made to him after all other deductions have been made. Surely the grower who, because of his own choice or because of advances, bad crops, high costs, or other happenings perhaps beyond his control, gives over his crop to another to do with as he sees best, is entitled to the most complete accounting and to a thorough understanding of the circumstances under which his crop was disposed of and the returns made.

There is only one point on which it appears as if the demand might be "a bit thick" and that is in accounting for crops which moved to market as long ago as four years.

There should be a limit of time and it ought to be less than four years, for which a man or a firm has to be able to produce complete records of his transactions. Growers would find it difficult to remember or to produce a record of their crops for the past four years.

Many mixed farmers, for instance, would find it difficult to produce the records of their crops during the past four years. Many dairymen would also find it a stiff task to tell with accuracy of the number and state of their herds in the year 1934.

SPORTSMEN WILL BE ABLE TO EXCHANGE VIEWS

SPORTSMEN and ladies will participate in an enjoyable game banquet some evening in the near future. It has been the custom of the Vernon and District Fish and Game Protective Association to hold an annual banquet and it is fitting that they should have it during the time when so many sportsmen from other points will be in the valley. It will make the gathering of more importance and it will give a unique opportunity to become acquainted and to obtain the other fellow's point of view.

Many of us who live in the Okanagan Valley are a little bit inclined to think that we should have the edge on the wonderful pheasant shooting to be had here. Perhaps we resent, in some measure, the coming in of sportsmen from more distant points. We may forget that everything is relative, that the man at Okanagan Landing has the same right to a feeling if a Vernon man shoots in his area as the Vernon man has who resents the visit by sportsmen from the Coast or the Kootenays.

If there is such a feeling, and there have been echoes of it, the game banquet will be a good place to bury the hatchet, or for those who cannot so easily do this, at least to get the other fellow's angle on things.

To resent the coming of sportsmen for the pheasant shooting is to take a very narrow view. It is altogether too petty. But it is not narrow or petty to insist that visiting sportsmen observe the game laws and bag limitations. It is the duty of hunters not knowingly to permit men to slaughter game, to shoot before or after hours, or to run into town with a bag limit of pheasants to cache them and hustle out for another lot.

It would be a mistake to suppose that many visitors do this, or that any more visitors do so than local hunters. Of course the visitor, if he is a good shot, finds it irksome to mark down four cock pheasants in the first half hour and then to cool his heels until another day's shooting comes around. It is hardly to be wondered at if he feels this a hardship, coming as he has, many miles, and spending much money. However, if he is not prepared to abide by the laws and regulations, he does not have to come here to shoot.

It would be a good gesture on the part of local sportsmen to put visiting hunters up at the clubs, to introduce them to townsmen or to acquaint them with any other means of enjoying their visit so they may run less risk of succumbing to the temptation which Old Nick is supposed to keep constantly on tap for idle hands to do. It might be suggested to sportsmen who are coming here for the pheasant shooting that they bring along their fishing tackle. There are good sporting fish in the lakes and a morning's trolling is a better preparation for the ardors of the hunt than other forms of indoor sport.

This year the local hunters who do not reserve their holidays for the pheasant shooting season, are having a better break. Though the season opens on a busy day, the second day's is almost as good, and few men are compelled to go to business on Sunday though many think they should go to church.

There has been a fairly good hatch of pheasants and most of the apples will be off the trees by October 15 so the hunting will be good and the fish and game banquet will be of the same high order.

TWO GOOD MEN WILL BE GREATLY MISSED

VERNON and the North Okanagan will miss two good men and true who last week entered on their reward. They are E. J. Sunderland and I. V. Sauder. They were of a greatly different type having at least one common bond. This was their love of the Okanagan Valley. They came to this country after the turn of the

Fugitive Harvest

*This oak tree bronzing at the lake's brown hem
Has brought another freight of seeds to birth,
With no clock's timing but the count of Earth
That dials a season's hands and quickens them.
Yet few the acorns when released, will gem
The quiet precincts of this knotted girth...
More will be lost; their essence and their worth
Will ooze beneath the lake's leafed diadem.*

*So is the harvest that a mind has borne
Through growth of years from beauty-weaving thought;
It being a while enriched with wealth amassed
By the clear tissue that its dreams have worn.
In vain to seek what treasure has been caught
And left in tangled shadows of the past!*

Kamloops, B.C.

—JESSIE PLAYFAIR BICKFORD

century and made for themselves homes in this new land. Service for others bulked largely in their lives. I. V. Sauder served on the Vernon City Council and "Jack" Sunderland, as he was known to most people, as Reeve of the Coldstream.

Each of these men was cut off in his prime after years of experience had ripened judgment and fitted them for years of greater service. They did not rush after money-making, Mr. Sunderland living more or less retired and Mr. Sauder preferring the good of his fellows to his personal advantage. Their characters were as different as their lives but they will be missed each in his own sphere.

PLEASING INFORMATION FOR SPORTS ARENA FANS

ALDERMAN Pettigrew, of Kelowna, states that the young people of Kelowna are greatly interested in securing a Sports Arena for their home city.

This is pleasing information for Vernon folk who are not only willing but anxious to see the Orchard City build one for the benefit of the young and also of the middle aged citizens of Kelowna and district. Kelowna cannot build an arena of this nature for itself alone. The responsibility is on the shoulders of the municipality in which it is built but when it becomes a fact, the building belongs to the whole area round about. There are many people resident in the district surrounding Vernon who never miss a fixture in the Sports Arena in this city. And are we glad of it? Most decidedly so. They are helping us to pay for it and they are getting happiness out of life that they would otherwise be missing.

After less than one full year's operations, Vernon is not only proud of the arena but looks upon it as one of its important civic assets. It is a show place in the city. Few visitors come here but they are taken promptly to see the \$65,000 structure, are told of the games that have been played there, and are urged if ever they are in the city when there is a game being played to attend and to see not only the sport, but the structure, and the magnificent lighting. They are told of the uses to which it is put and of the new glow of civic pride which beams on us as we boast.

Vernon is conscious of the fact that it owes the Sports Arena to the young people of the city. They had the vision and they went out and sold it not only to the older people but to residents in all walks of life. From the start it has been a success. It attracts people here. It pays its way and provides Vernon with a centre so that rain or shine almost anything can be held there except horse races.

There is a fond hope in many minds that Kelowna, Kamloops and possibly Penticton may build sports arenas and have hockey and lacrosse teams competing for Valley honors and making news that even the metropolitan dailies cannot ignore. Vernon people think and speak with pride of the Sports Arena and if it should cost the civic treasury some money in years to come, it will be money well spent. In the meantime Vernon people are taking off their hats to the enthusiastic group of young men who sold this city the idea, and who did so much to make it a reality.

Archie-The Alligator

ARCHIE, a ten year old alligator, who is a resident in Brighton Aquarium, recently distinguished himself by a feat, besides providing him with some publicity in the London Press, is not, one feels, without significance. Archie was hungry. So, having extricated himself from his tank, he traversed no less than 150 yards of winding corridor, and reached at last his destination—the employees' messroom. What a lesson in etiquette to his tribel formerly.

A crocodile

Upon the Nile,

Amused at getting thinner,

Asked podgy James

To ten and games,

And made him stop to dinner;

but, today, the eminent Saurian, such as Archie must now be considered, is acutely aware of the conventions. Correctly attired—if not in a white tie, at least in a tailed coat—he delights to submit himself to the more formal rules of the messroom.

It appears that, owing to some prejudice, Archie was not admitted to membership of the mess; and, naturally, he was upset. One hopes, all the same, that the staff will not entirely fail to perceive the delicate compliment to their example and influence, and that they will look with an understanding eye upon the aspirations of Archie.—Christian Science Monitor.

Always Remained Friendly

Generally understanding and sympathetic, there was yet one thing that genial, kindly William Howard Taft could not comprehend. And that was why men could not always remain friendly and approachable after they had been elevated to high positions.

One of the rare occasions when Mr. Taft was provoked to anger occurred when, shortly after his election to the Presidency of the United States, he received an invitation from a certain organization to attend a banquet "any time before you are inaugurated."

"What is the matter with these people?" exclaimed Mr. Taft. "Do they think I am going to be any different after I am inaugurated?"

FLAMING YOUTH

From the Files of The Vernon News

Public dissatisfaction with the shows which operated in this city last week found expression at the meeting of the City Council.

TEN YEARS AGO

Thursday, Oct. 11, 1928

For his views that the operation of such an affair was a disgrace to the city. So little do the aldermen want the return of any such shows that they passed a resolution that the Union of Municipalities be petitioned for legislation empowering them to put on heavy taxation or prohibit their showing. Absence of Alderman Oliver from the Council meeting this week, owing to sickness, prevented a full discussion of the situation regarding the waterworks. Alderman Spencer stated that the public demanded that the disgraceful mess which had resulted in the city being short of water be cleared up. Alderman Sauder stated that it was all to have come out at that meeting but the absence of the chairman made it inadvisable. Tenders for the construction of the power line from Vernon to Armstrong are to be called for immediately by the West Canadian Hydro Electric Corporation. Limited, according to president R. A. Blanchard. Endorsement of the by-law by the ratepayers will, he predicts, have the effect of Armstrong's receiving supplies from the Shuswap Falls power plant before the beginning of the new year.

A meeting of the various committees preparing for the Victory Bond campaign was held in the Board of Trade rooms this week. It was requested that several members be added to the present committees by the executive. The campaign got under way at a large meeting early in the week and promised well for the general success of the drive in this city.—Ladies in charge of collections for Christmas gifts for soldiers overseas were successful in securing nearly \$500 with some returns not yet in.—Excellent progress has been made in the construction of the large Vernon Storage Company's new building. Foreman Cryderman has a large number of workmen employed on the project and work is being rapidly pushed under favorable weather conditions.—Secretary Ross, of the Navy League, has received word that Sir Charles Tupper, accompanied by Secretary Davis and Assistant Secretary Powell Chandler will give an illustrated lecture here dealing with the Navy on October 22.—George O. Gauding, of Oyanam, brought in to town yesterday a splendid specimen of grizzly bear and also a 10 point mule deer captured on Park Mountain during a hunting trip in which he was accompanied by William Chesterfield the well known hunter of Mabel Lake.

TWENTY YEARS AGO

Thursday, Oct. 10, 1918

At a special meeting of the City Council, held this week when the Council reconsidered and passed the by-law to raise \$50,000 to install a sewerage system. J. Galt, O. E. stated that he was prepared to enter into an arrangement to superintend the construction of the system in all its details.—So highly appreciated were the services of the Vernon Fire Brigade Band at the New Westminster exhibition that the manager decided to recommend the Board of Control to vote them an extra fifty dollars in addition to the regular amount agreed upon for their services.—Hop picking at the Coldstream Ranch was finished last week and the Elbowden from Lytton and across the line, who had been engaged in the work for several weeks, returned to their homes.—His Excellency Earl Grey, Capt. Irvine, his aide de camp, Lord Stanhope, Mr. Benson and Mr. Lowther returned down the lake last week after spending the day at Leavenworth. Earl Grey's Okanagan fruit farm. The Governor General was apparently much delighted with the appearance of his fine young orchard, and expressed himself as being more than ever in love with the beauties of the Okanagan.

Peace In Our Time

(Margaret Darville, Oyanam)

"Give peace in our time, O Lord!—Thousands upon thousands of people have prayed in these last weeks, prayed as never before, and now from the "Heart of Empire" comes the voice of a man, returning, not from a triumphant war, but from a mission of peace—"Peace in our time, we hope, and an honorable peace."

We, the people of the British Empire had listened to the voice of our Prime Minister, pleading in law, solemn tones for our prayers, we had heard it grow weary and broken by continuous, anxious conference, and we, the people, had earnestly pleaded with Almighty God for a "happy issue out of all our afflictions," and He, in His great mercy has granted our requests.

Let us with thankful hearts rejoice, and apply ourselves with all our powers, to seek peace and pursue it, so that the whole round world may rejoice with us.

Mass Storage In The British Isles

J. M. Keynes, noted British economist, would have the British Government go one better than it has already gone in providing for an accumulation of stocks of raw materials in war time. He has a scheme for collecting stocks on a grandiose scale so as to kill two birds with one stone—first to provide war reserves, second, to avoid those peace-time fluctuations in prices which cause recurring trade slumps.

He would have the British Government spend as much as \$20,000,000 a year in offering free storage for surpluses of wheat, sugar and other Empire commodities, and perhaps timber and oil from non-Empire countries. From all over the world goods would come pouring into the British Isles contributing to a store which might reach the value of \$500,000,000. The owners could sell the stocks when it was advantageous to do so and keep them in store free of cost when it was not.

Thus a glutted market would be avoided when prices were tending to fall, and an ever-ready supply would be there when they were tending to rise. Here would be a great pool of essential commodities helping to keep the price levels steady in peace time, and in war an invaluable reserve available for the Government.

Such a plan, if it produced the result Mr. Keynes hopes for, would obviously not only benefit the British Empire. It would affect price levels everywhere and avert sudden fluctuations.

Nor is it necessary that the contributions should be confined to produce of the British Empire. Other countries could join in so long as no undue strain was put upon the exchanges. This would be a matter for consideration in trade agreements.

There is always a danger that well-conceived plans such as this will be listened to with approval and then pigeon-holed by busy authorities. But Sir Arthur Salter's plan for war storage has already been adopted upon. The British Government is thinking along these lines, and for that reason Mr. Keynes's ingenious device is likely to receive practical consideration.—Christian Science Monitor.

So They Say

"I forecast that there will be a return to evangelism."—Roger W. Babson.

"The whole state of Europe is moving steadily toward a climax which cannot long be delayed."—Winston Churchill.

"Audiences are never twice alike; they are as variable as the players who try to stir response from them."—Otis Skinner.

"Unless the British Empire and the United States come together and operate together, you'll never get world order."—Lady Nancy Astor.

"If your government is interested in supporting a constructive development policy for Ontario, I shall be pleased to renew representation already made to you on this subject."—Premier Mitchell P. Hepburn and Prime Minister King.

"If a child has not acquired an incentive to mental and other personal improvements by the time he has reached 13 years of age he is not, in my opinion, likely to acquire the habit by simply being kept in school until he is 16."—C. L. Burton, president, Robert Simpson Co.

"I am getting rather used to the sensation of high speed."—Captain George E. T. Eynon.

Canadian Apple Industry Is Reviewed

"The Apple Industry of Canada" is the title of an article in the Canadian Geographical Journal for September, 1938, in which are presented the history, development and present problems of apple growing in this country. The well qualified authors of the feature are M. B. Davis, Dominion horticulturist, and R. L. Wheeler, assistant director of marketing service.

Concisely presented, province by province, is the history of the apple industry in Canada, British Columbia being featured as the setting for the "most recent commercial expansion of apple production." The occupation of fruit growing is fully dealt with, and the many phases of what the authors describe as "probably the greatest gamble on earth" are pictured in words, from January pruning to midwinter disposal of surplus fruit, irrigation, spraying, fertilizing, cultivating, preparation for shipping, packing and grading are some of the fruit grower's annual activities described.

Week in Canada

Prime Minister Mackenzie King sent messages of appreciation and gratitude on behalf of the people of Canada to Prime Minister Chamberlain of Britain and President Roosevelt of the United States for their efforts in assisting the solution of the European crisis. "The heart of Canada is rejoicing at the success which has crowned your unremitting efforts for peace," the prime minister said in his messages to Mr. Chamberlain. "My colleagues in the government join with me in unbounded admiration at the service you have rendered mankind." In his message to Mr. Roosevelt, Mr. Mackenzie King said: "In your messages you voiced the heart and conscience of mankind. Your words, we believe, have contributed in no uncertain way to preserving peace at a moment when the world's peace itself was threatened." Approval of the Prime Minister's attitude toward the sentiments and policies expressed by Neville Chamberlain, came from Dr. E. J. Manion, Conservative leader. "I can assure Mr. King," Dr. Manion continued, "that whatever steps he and the Government take in support of Mr. Chamberlain and the Empire will have the full cooperation of the National Conservative party and its leader."

Early appointments are expected to two vacancies on the Transport Commission, preparatory to bringing into operation the wider powers conferred upon the board by new legislation. An Ontario man will replace Dr. S. J. McLean, whose latest ten years of his long service recently expired. He is to remain in an advisory capacity. The other appointments will be from the west, in succession to the late Hon. T. C. Norris. The board is being equipped with extra experts now that its jurisdiction is to comprise lake shipping rates and rates on air lines, in addition to railways, express, telegraphs and telephones. The "agreed charges" section of the act will not become operative until "not claimed," and no date has yet been fixed for this being done. The statute permits the railways to make long-term agreements with shippers to handle their output in whole or in part and to quote rates having regard to its assured business, but all tariffs arranged for will require the approval of the board. This system is designed to help the railways in view of the competition of trucks and buses on the highways.

Efforts of the interdepartmental committee on the control of profits in armament contracts to protect the public interest in the First World War ended in a meeting which extended until 3 o'clock in the morning of March 18 last. C. Fraser Elliott, commissioner of income tax, stated at the Davis enquiry into the contract. Mr. Elliott was a member of the committee which revised the contract under which the John Inglis Company of Toronto is to make 7,000 Bren light machine guns for the Dominion Government. The committee considered the fact the Inglis Company had the inside track in England and an assurance of a British contract was an "invisible asset" in its balance sheet, said Mr. Elliott. A point on which the interdepartmental committee spent considerable time, said Mr. Elliott, was the amount of money invested in the company. This was given as a total of \$688,000.

Ending a difference that has existed for 13 years, the eighth general council of the United Church of Canada endorsed an agreement with the Presbyterian Church of Canada. Under the agreement the United Church concedes Presbyterian claims to use of the title "the Presbyterian Church in Canada." The agreement reached jointly by representatives of the two churches was opposed by only two commissioners. Each church by the terms of the agreement acknowledges a claim of continuity has been, and still is, made by the other. Both churches agree to approach together the Federal Parliament and the Provincial Legislatures, as and when the Presbyterian Church desires for amendment of the United Church of Canada Act passed after the union of Methodists, Presbyterians and Congregationalists in 1925.

Grain movement westward has been resumed in fairly heavy volume, but the Wheat Board is acting with caution so as to prevent the over-taxing of Pacific coast handling, storage and transportation facilities. It was announced this week that 11,500,000 bushels of wheat are now in Vancouver elevators, and enough grain is now already on its way to the coast practically to fill the terminal houses. For long voyages to the United Kingdom and continental Europe it takes some time to get shipping in position, and so far, due to the heavy crop and comparatively early harvest, more wheat has flowed to Vancouver faster than it could be trans-shipped.

Four of the five members of the Rowell Dominion-Provincial Royal Commission arrived in Ottawa Monday to commence two or three weeks consideration in camera sessions of the vast fund of data prepared by its secretarial and expert staff on the subject of the enquiry. Some further public sessions of the commission will be held toward the end of October as two or three provinces are understood to be desirous of making further representations to the commission. It is reported that the Dominion Government, beyond giving the commission statistical returns asked of it, does not intend to make any formal submission.

Preliminary work for additional coastal defence outposts at Saint John, N.B., Strait of Canso and Sydney, N.S., is being undertaken by the defence department. Some additional work on the coast defence fortifications carried out on the Atlantic and Pacific coasts the past two years has been indicated, the department announced. The announcement was made in connection with the plans approved some time ago, the department has now reached the stage where preliminary development at two or three places on the Atlantic can begin while the work to be done on the Pacific this fall is largely by way of continuing work already proceeding.

Approximately 2,000 Czechoslovakians in British Columbia eagerly followed reports of the Munich conference that will decide fate of their homeland. Most of the Czechs in this province are engaged in mining, logging and agricultural pursuits, according to British Columbia government sources. The largest migration of Czechs to this province took place from 1920 to 1930 when close to 750 arrived, according to census records. Of the 1,720 Czechs listed in British Columbia at the last census, 1,210 were males, many of whom might be recalled for military service if war broke out, and 507 were females.

Bound for a new land, where they hope to mend their broken home lies in a freer and fuller life under the Union Jack, 33 German and Austrian refugees sailed from Victoria aboard the Canadian-Australian Mail. Among all were on their way to Australia. Members of the party appeared to be fairly well off, judging by their clothing and the jewelry exhibited by some of the women. According to officers of the ship, the party possess considerable means, while the greater number speak good English.

YOU CAN'T PUT A PADLOCK ON YOUR PURSE

But you can put your money where you will not be tempted to spend it. You need a plan for saving, just as you need a plan for your own work or your child's education. Start your savings plan with the first dollar you can spare. Open an account with the nearest Post Office Savings Bank and let nothing stop you from adding to your savings regularly. Just as buttons accumulate, one by one, in the drawer of your sewing machine, so will dollars accumulate in your Post Office account. Compound interest at 2 per cent. is paid and withdrawals may be conveniently made at any time you require some cash. But don't withdraw except in case of real need. Cultivate the habit of thrift.

ALL BRANCHES OF POST OFFICE SAVINGS BANK ARE OPEN DURING POST OFFICE HOURS

Don't Keep on Having Constipation!

If constipation's got you down—so you feel heavy, tired and doped, it's time you did something about it. And something more than taking a physic! You should get at the cause of the trouble. If you eat only the things most people do, the chances are that a very simple fact causes your constipation—you don't get enough "bulk." And "bulk" doesn't mean heavy food. It means a kind of food that isn't consumed in the body, but leaves a soft "bulky" mass in the intestines and helps a bowel movement. If this is your trouble, eat crisp, crunchy Kellogg's All-Bran for breakfast every day and drink plenty of water. All-Bran is not only rich in "bulk"—it also contains the natural intestinal tonic, vitamin B₁, made by Kellogg in London, Ontario. Sold by every grocer.

CANADIAN NATIONAL RAILWAYS

APPLE MARKET IN HONG KONG STUDIED

HONGKONG, Oct. 1.—There are no separate statistics available covering the importation of fresh apples into Hongkong, the figures being recorded under the heading, "fruit, all kinds." On this account, it is impossible to give anything but an estimate of the annual volume of this trade, which, from investigations among the leading importers of this commodity, can be placed at from 40,000 to 50,000 cases valued at from \$25,000 to \$110,000. This is according to statements of V. E. Duclos, Canadian Trade Commissioner.

During the past twelve months it may be safely assumed that approximately 90 percent of this trade has been controlled by United States shippers. Canadian shipments have been small and irregular while business with North China and Manchukuo, which prior to the commencement of hostilities between China and Japan had been an important factor in the market, has been severely curtailed. Australian growers have also shipped to this market, but in only limited quantities owing to high freight and infrequency of steamer services.

The volume of business done in Canadian apples to Hongkong has never been large, owing to the advantage in prices enjoyed by the United States product. Invariably Canadian quotations have been 10 to 15 cents per case above those of the United States suppliers, whose brands are long established and well known in the Hongkong market. Provided Canadian shippers are in a position to quote competitively to this market throughout the season, there are good prospects of creating a regular demand for Canadian apples.

Over the period of the last few years the market in Hongkong for apples, and in fact for all types of imported fruits, has gradually developed to a point where the demand, which was previously confined to the requirements of Europeans and wealthier Chinese, has been extended to include the middle classes, who are now regular purchasers of fresh imported fruits. It is interesting to observe that nowadays the fruit hawkers, or door-to-door seller, include a greater proportion of imported fruits in his stock-in-trade, whereas it has been customary for these vendors to confine their activities to the sale of cheap native fruits.

Although sales of apples ex stock are occasional matters to Singapore, Bangkok, and to the south China coast ports, the bulk of imports into Hongkong are for local consumption.

There are only a few foreign and Chinese importers in Hongkong engaged in the direct purchase of apples from overseas exporters. It is customary for them to receive regular price quotations from their principals by cable, which are subsequently broadcast by brokers in their employ to the market dealers and other retailers who indent on the basis thereof for future deliveries. In this way importers are able to regulate their supplies to the requirements of the market.

The bulk of sales to this market is of the Extra Fancy grade. There has always been a demand in Hongkong for Yellow Red apples in counts of 125/120's and 138/133's, but recently this has shown a slight falling off owing to the popularity of a red apple.

Wineapples in counts of 150/138's and 175/161's were formerly the most popular red apple, but during the last year or so the preference has turned to Delicious in counts of 80/100's and 100/125's. McIntoshes are not in great demand, owing to their susceptibility to bruising in transit. One local importer is of the opinion that if it were possible to pack McIntoshes in counts of 100/125's in cases with corrugated paper divisions, similar to those used in the packing of eggs, to obviate the possibility of damage in transit, increased business in this variety might result.

STORAGE
Yellow Newtowns may be carried in ordinary ventilated space up to the end of February, after which shipments must be made in refrigerated space.

Wineapples must be shipped in refrigerated space after the end of March, while Delicious and McIntoshes must always come forward in refrigerated storage.

PENTICTON PLANNING IMPROVED LIGHTING

PENTICTON, B. C., Oct. 3.—The Penticton municipal council has authorized the electrical superintendent to carry out some surveys with respect to additional lighting for Main Street. It is planned to increase the lighting of the street by placing fixtures on the east side of the street, and also by means of overhead centre fixtures at intersections, when finances are available. A fixture of the centre type was installed at the intersection of Main Street and Broadway Avenue some months ago, and has been giving satisfactory service.

METEOROLOGICAL

Following are the temperatures taken at the Penticton Station for September, 1938:

	Max.	Min.

Fighting Game Fish Across Canada

Fishing conditions are so varied in Canada and the species of game fish so numerous that a small booklet is required merely to list all the fish and regulations of the different sections. Deep-sea fishing is found on both ocean coasts, for half-ton tuna off Nova Scotia and equally large sharks near Vancouver Island; five-pound small-mouth black bass at the Devil's Gap Camp, Lake of the Woods district, and in hundreds of lakes in Eastern Canada, vie for popularity with 40-pound maskinonge at such favored resorts as the French River Camp in Ontario. Fighting trout of several species are found everywhere in Canada, most popular regions among anglers being the Laurentian Mountains, north of Montreal, or the mile-high lakes surrounding Banff and Lake Louise in the Canadian Rockies; and mighty salmon bring joy to the heart of anglers in the Maritimes.

I.O.D.E. Meeting In This City Hears Of Work Accomplished

Provincial Officers Are Honored At Largely Attended Gathering

On Thursday evening, September 29, Chrysler Chapter, I.O.D.E. held a special dinner meeting at the Chateau Cafe here in honor of a group of Provincial officers of the Order. Mrs. Frank Stead, Vancouver Provincial President, Mrs. R. J. Sprott, Vancouver Vice-President, Mrs. P. E. Corby, Victoria, Organizing Secretary, and Mrs. C. Barrett-Lennard, Vancouver, Municipal Treasurer.

After a most enjoyable dinner had been served, the Toast to the King, proposed by the Regent, Mrs. R. Fitzmaurice, was honored, following which Mrs. Sprott was introduced. She spoke briefly of certain phases of the work being done by the Daughters of the Empire, great importance being given to the work of Canadianization.

"The I.O.D.E. has facilities for extending a welcome to every newcomer to our shores," she said, "from the ship's side to the farthest hamlet where they may settle; helps unaccompanied women and children on the way to new homes; points out the value of citizenship, sending cards of congratulation to those being acquired; visits families of new citizens, striving to help the newcomer to get the spirit of our democratic instruction, the maintenance and development of which are furthered by organization work."

The speaker drew to the attention of her audience the fact that the Order offers an outlet for every type of social service work. Every Preventorium in the Dominion was started by the Daughters of the Empire. She urged the members of Chrysler Chapter to welcome every opportunity for service presented to them, since it is only the work and growth of the Primary chapters that make possible the achievements of the Provincial and National chapters.

Mrs. Barrett-Lennard spoke briefly to the Order's relationship to the Sea Cadets, many of whom are assisted by various Chapters. Over 500 of these Cadets have entered the mercantile marine. She told of the highly prized medal given by Lloyd's, only 200 of these having been awarded in a period of one hundred years—one of these medals has been won by a Vancouver boy.

Mrs. Stead, the Provincial President, prefaced her report of the National Convention held in Vancouver last year, by urging the members of the chapter to make a study of the problems of the Empire by means of an Empire Study Club. She referred to the War Memorial Fund of the Order, \$60,000 of which was British Columbia's contribution, and from which \$50,000 has already come back to the province through scholarships and bursaries to our students, with more to follow.

BEARS BECOMING "CHEEKY" IN TRINITY VALLEY DISTRICT

TRINITY VALLEY, B. C., Oct. 1.—Bears are getting a bit "cheeky" lately. School boys met one on the road home, and the animal calmly stood and stared at them for a full minute before he turned and leisurely ambled off into the bush. Another bear visited a cabin and knocked over a pile of fruit boxes. The family were roused from sleep by the bear's crunching. When they opened the door to frighten away what they thought was the "bad cow," they caught the bear in the act of helping himself to peaches. He was a bit surprised, too, so he ran.

Dr. and Mrs. O. Morris were visitors at the school on Wednesday, when Dr. Morris inspected the pupils.

There was a beautiful display of northern lights seen here on Wednesday night. There was more color to the lights than is usually noticed.

During the Thursday storm, a tree by Conn's Lake was hit by lightning and burst into a ball of flame.

Thanksgiving service was held at the school on Sunday by Rev. James Brisco, of Lumby. The school was decorated with Trinity Valley flowers, fruit, and vegetables.

P. S. Inglis and Medwyn Hill, of Lumby, were visitors to the valley this week, as were also George Reeves and son, George, of Okanagan Centre.

UNION LIBRARY IS POPULAR AT OYAMA

OYAMA, B. C., Oct. 4.—The Okanagan Union Library van is due to arrive this week with a fresh supply of books, including many requests. The circulation shows a steady increase, and many more non-fiction books are in demand. Those on art, and crafts, travel, biography and music are especially asked for. The library hours are from 3:30 to 5:30 o'clock each Friday.

An enjoyable dance was held on Wednesday, September 28, at which the Okanagan young people were well represented. The new dance floor was in fine condition, the music being supplied by Roy Enderby's orchestra.

Mr. and Mrs. Norman Davies are having a fishing vacation at Little River Fishing Camp, Sorrento.

Mrs. W. T. Heddle and Miss Grace and Miss Constance Heddle have given up their home in Oyama and gone to live in Victoria. W. T. Heddle came to Oyama with his family about 25 years ago, and built a beautiful home on the west side of Woods Lake, also planting an orchard of 17 acres. He died in 1929, and Mrs. Heddle continued to reside in the old home until recently, when it was sold.

SUMMERLAND VOTES TO BORROW \$154,000

SUMMERLAND, B. C., Oct. 3.—People of Summerland, in the busiest time of the orchard year, turned out to vote to borrow \$154,000 to complete the replacement of the domestic water system from wood to metal pipes, and supported a by-law on a vote of 225 to 13. Three ballots were rejected.

Passing a money-by-law, when there is not an election on, is usually considered difficult, as the interest of the people is not so keenly aroused. The last by-law there, voted on to replace the mains for the waterworks, had about 160 votes polled. That was for \$80,000 and borrowed at the usual rate of municipal interest.

By the loan it will be possible to borrow from the government, with bonds posted as security, at a rate of 2 percent. If this loan had not been taken up now, it is quite possible the whole distributing system would have had to be replaced, but could only be financed over a period of years and at a 4 percent or 4 1/2 percent rate.

KOKANE GAFERS IN KELOWNA ARE FINED

KELOWNA, B. C., Oct. 1.—Kokanee are now running in Mission creek, but the strong arm of the law is reaching forth and grasping young and old who are defying regulations and endeavoring to gaff or net these red fish.

Three adults and nine juveniles were hauled into court on a recent morning by Game Warden Maxson and were assessed small fines and costs of the court. Vincent Kolodychuk, George Olson and Shirborn Chaplin paid fines of \$5 and costs for catching Kokanee, while nine juveniles paid \$2 and costs each.

Eddie Kielbicki pleaded not guilty to a charge laid by E. J. Maguire, of trespassing on Mr. Boyce's property, claiming in his defense that he was only walking on the section of land next to the lakeshore. Magistrate Burne found him guilty, however, and fined him \$10 and \$2.50 costs, or ten days in jail. Kielbicki stated he did not have the money and so was ordered to spend his term in the jail.

KELOWNA COUNCIL TO RECEIVE ADVICE

KELOWNA, B. C., Oct. 1.—That the city council will be willing to consider suggestions as to the placing of stop signs on the Junior Board of Trade or any other body, is the reply that will be made by the city council to a letter received from the Junior Board asking whether the council would consider receiving suggestions from the board's traffic committee.

BRITISH COLUMBIA DEPARTMENT OF MINES

The value of mine production in 1937 was \$74,475,002, an increase of \$20,369,935 over 1936. All phases of the mining industry have shown increases in both volume and value.

For copies of the Annual Reports of the Minister of Mines, and other publications dealing with the mining industry of this Province, apply to:

DEPUTY MINISTER OF MINES, Victoria, B. C.

FRASER VALLEY HAY IS BEING IMPORTED INTO LUMBY DISTRICT

LUMBY, B. C., Oct. 1.—Hay is being imported into Lumby from the Fraser Valley laid down here at \$20 per ton. Local farmers are asking \$25 per ton.

"Bill" Faust, who was in charge of early operations in the building of the hydro electric dam at Shuswap Falls some years ago, afterwards leaving to work on the Alouette project at the Coast, was an interested visitor to the falls on Sunday.

Cleophas and Arthur Bessette made a trip over to Edgewood on Thursday to procure additional machinery for mill improvements.

Bell Lumber Co. is not hauling poles just now, but Sigaleit Co. continues hauling poles and lumber from Squaw Valley.

A successful benefit dance was held by the Women's Institute on Friday in aid of a worthy cause.

After visiting Mr. and Mrs. Henry Sigaleit for a few weeks, Mrs. Brown, formerly Miss Louise Matiks, left on Friday for her home in Vancouver.

Sugar Lake bridge and fill are completed now, and camp breaks up this week.

Mr. and Mrs. Choguime and family of three, arrived in Lumby from Ottawa last week end on a visit to Mrs. Choguime's parents, Mr. and Mrs. J. Martin.

KELOWNA ELKS LODGE ADDS TO MEMBERSHIP

KELOWNA, B. C., Oct. 1.—The K. of C. hall was taxed to capacity recently at a special meeting held by Kelowna Lodge No. 52 of B.P.O. Elks and at which there were initiated a large class of applicants for membership enrolled by P. A. Miquelon, Dominion grand organizer of the order, who has been in the city during the past two weeks engaged in a selective membership campaign in the interest of the local lodge.

New members were officially welcomed to the ranks of the order by Chas. E. Friend, District Deputy Grand Exalted Ruler for the Okanagan Valley lodges. Mr. Friend expressed his keen pleasure at the success of the campaign and at the fine type of candidates brought in.

In a stirring address Mr. Miquelon outlined the aims, ideals and objectives of the order of Elks. It has a wonderful record of achievement in the field of service and stood out prominently as a community order of good fellowship. He urged his hearers to "carry on" in Elksdom—it was worth while—and never to forget that charity, justice, brotherly love and fidelity should ever remain the guiding principles to inspire them in their general activities.

OKANAGAN AGRICULTURE CLUB PLANS SESSION

A. D. Heriot, of this city, as secretary of the Okanagan Agricultural Club, has announced that a meeting will be held in the Royal Anne Hotel, at Kelowna, on Wednesday, October 12, when a number of important matters will be under review. It will start at 10 a.m.

A resume of the Ottawa meeting of the American Society for the Advancement of Society will be presented by Dr. H. L. McLarty, of Summerland, and there will be discussion of the report of the fertilizer conference at Pullman, led by H. H. Evans, of Vernon.

Also of outstanding interest will be the review of culling moth conditions from the border to Wenatchee, led by A. A. Dennis, of Vernon, and Ben Hoy, of Kelowna.

Committees on still further matters will bring in reports, it is expected.

"TOM SAWYER" ARRIVES IN VERNON VIA SCREEN

Tom Sawyer, Huckleberry Finn, Joe Harper, Becky Thatcher, Aunt Polly, Injun Joe, Muff Potter and all the rest come to life again in the little Missouri town along the Mississippi, in David O. Selznick's production of "The Adventures of Tom Sawyer," which comes to the Empress Theatre on Thursday, Friday and Saturday, October 6, 7 and 8.

Tom Sawyer was created by Tommy Kelly, who was chosen by David O. Selznick out of 25,000 applicants for the role.

The cast is an impressive one and includes May Robson, who gives one of her finest performances as Aunt Polly; Jackie Moran as the ragged Huckleberry Finn; Becky Thatcher, red hair, blue eyes, freckles, and all, is played by Ann Gillis; Walter Brennan is the town doctor, Muff Potter; Victor Jory makes a sinister and menacing Injun Joe; Cora Sue Collins is con-victor as Amy Lawrence and David Holt is excellent as Tom's brother, Sid Sawyer.

The First Electric Tram

In 1890, the first electric street car in British Columbia "excited no little enthusiasm" in Vancouver according to newspaper reports.

Seven years earlier, when the Canada Life issued its first policy to a resident of the province, Vancouver comprised only a few scattered buildings. Victoria, Nanaimo and New Westminster were the only incorporated towns in the province.

Over a period of ninety-one years the Canada Life has established a reputation for absolute dependability. It has paid to or accumulated for policyholders, annuitants and beneficiaries more than \$650,000,000—over \$50,000,000 more than it has received in premiums.

Young and virile lines have been chosen for the pavilion the Canadian government will erect for the World's Fair at New York next year. This building will house the Dominion's exhibits.

MAIN LINE IN HOPE OF MORE WHEAT HAULING

It's The 'Late Lamented Rush' Of Golden Grain Westward

REVELSTOKE, B. C., Oct. 4.—It's the late lamented wheat rush now. With the same suddenness that it began, the westward movement of wheat trickled to an almost complete stop toward the end of the month. For the first time in weeks all the pits in the roundhouse are occupied by locomotives while trackage in the immediate vicinity is also occupied by engines taking a well earned rest.

Most of the engines are in for belated washdown and some for extensive repairs. At the present time 5915 and 5908 are in the backshops for overhaul. The shop staff is still enjoying its return to a six day week for the first time since the early days of the depression.

A number of the engines, which were rushed from the prairie to the Vancouver division at the height of the rush, are making their way back to prairie points. The 5389 and the 5340 were in Revelstoke Monday en route east. At the present time the flow of business is eastward. Long strings of empties are going east and the Okanagan business still continues its even flow.

There appears to be an impression that the wheat will come this year again within a week or two. Vancouver grain men are authority for the statement that Vancouver facilities never were congested and that Vancouver elevator space is only half occupied. Be that as it may, it is apparent that Coast grain men are doing their utmost to have the flow again diverted this way. And Revelstoke is watching their progress with no uncertain interest.

First steps toward the erection of Revelstoke's new municipal building were taken Monday, when Craig Rutherford commenced the work of excavating for the basement. Moncrieff and Vistavet, Vancouver contractors, were the successful bidders for the construction of the building, which will commence their work as soon as the excavating is done. According to the terms of the contract, the building is to be ready for occupancy by January 1.

The annual jam, pickle and produce show at the Queen Victoria Hospital was held Saturday and as a result the store room of the hospital is filled to overflowing with these necessary requirements. As usual school children brought various kinds of produce to school Friday for the hospital and their contributions helped to swell the total contributions. During Saturday afternoon, the matron and Ladies' Hospital Auxiliary served tea to the many visitors at the hospital.

Kenneth Cullen Is Named President Of Student's Council

BAUMBROUGH, HAMILTON NAMED DELEGATES BY VEGETABLE PRODUCERS

All Members Of Board Should Be Growers, Meeting Decides

W. H. Baumbrough and A. O. Hamilton were named as the two delegates representing the Vernon Vegetable Marketing Board's scheme, at the meeting which was held in the Japanese Community Hall here last Friday night.

This was a session adjourned from the preceding Tuesday night when R. B. Homersham, Kamloops, a member of the Board, had been in attendance, but when the sparse number of growers present had made it impossible to proceed with the election.

The Board was not represented at this second meeting, but there were about 18 in the hall, and election of delegates was proceeded with. J. B. Fraser occupied the chair and C. G. Wolsey was the secretary.

There was very little discussion. A resolution originating from Kelowna, calling for all three members of the Board to be producers, was endorsed. This, it was thought, would ensure the best supervision of growers' interests, though at the same time it should not be considered criticism of any person now on the Board. The general principle of grower control, it was stated, should nevertheless be upheld.

Vernon High School Is Organized For Another Season's Activity

With four weeks of school behind them in the new term, the students of the Vernon High School are gradually becoming settled in the regular routine of activities. The election of officers to the various student bodies has been completed and these organizations have already started their preliminary functions.

The Students Council this year will be headed by Kenneth Cullen as president and an executive consisting of Secretary-Treasurer Betty Kwong; Athletic representative, Maurice King; Social representative, Valerie Smith; Activities representative, Donald Cameron; Torch representative, Janet Middleton; and Finance representative, Betty Kwong.

This year there will be fewer student organizations than in previous years but it is hoped that the work done by those in existence will be of greater benefit to the students than that of a larger number of small ineffective bodies. The three activities, besides the Students Council, which have been organized to date, are athletics, the school traffic patrol, and the school publication.

Athletics this year will be handled by a committee of students responsible to the Students Council and through this committee all arrangements will be made for the tournament and contests to be held during the year. The school has lost a large number of its leading athletes this year and a great deal of reorganization has been found necessary in this branch of school life.

The traffic patrol is under the direction of W. L. Pearson and includes boys from grades 9 to 11. Edmund Kwong was elected captain of the patrol and he, with a committee of three others, will be in charge of all arrangements. The patrol has been operating at the east entrance to the park for more than two weeks.

Following somewhat the same plan as last year, the publications are under the direction of a Publications Board, consisting of Pat Leslie, David Fowler, and Ken Cullen. This board, whose members have been connected with the school paper for the last three years, will supervise both the production of the monthly paper, The Torch, and the V.H.S. Annual. The paper will be under the direct supervision of Stuart Nelson as Editor in Chief.

The newest addition to school activities this year has been the appointment of a finance committee which will handle the accounts of every organization in the school. It is hoped that in this way the finances of the various school activities can be centralized and after accounts have been approved by this committee, they will be submitted to the Students Council for payment.

With the basic organizations in the High School established, it is expected that within the next week every branch of activity will be well established for the coming year.

MISS GERTRUDE RANDS HONORED IN ENDERBY

ENDERBY, B. C., Oct. 4.—In honor of Miss Gertrude Rands, whose marriage to Ernest "Ted" Peel takes place shortly, Miss Evelyn Hawkins was a shower hostess at the home of her mother, Mrs. C. Hawkins, on Wednesday afternoon. Beautiful fall roses, in shades of pink and red, which had been given for the occasion by Miss Bowes from her lovely garden, were used for the decoration of the home. Following tea the bride-elect was presented by little Norman Blackburn with a beautifully decorated carriage filled with most useful and appreciated gifts.

Mrs. T. Kneal was a tea hostess at her home to a few guests on Friday afternoon.

Mr. and Mrs. S. Speers, accompanied by Miss Pirman, of Armstrong, Howard Speers and Barrie Speers, were visitors to Salmon Arm on Thursday evening.

Mr. and Mrs. F. Day, of Kelowna, have been visiting at the home of Mrs. E. Dow and Mr. and Mrs. Arthur Reeves this week.

A daughter was born to Mr. and Mrs. Louis Haros, of Vernon, in the Enderby General Hospital on Sunday.

A daughter was born to Mrs. Smith, of Trinity Valley, on Thursday in the Enderby General Hospital.

The many friends of Jack Gaylord will be pleased to know that his condition is improving and it is hoped that he will be able to return shortly to his home. Mr. Gaylord has been confined to the Enderby General Hospital during his many weeks' illness.

A large number of members of the Sir Douglas Haig Chapter I. O. D. E. and interested friends gathered in the Parish Hall Friday afternoon for the Big Bend Highway I. O. D. E. speaker. Following the addresses, tea was served. The hall was beautifully decorated for the occasion with masses of late fall blooms. On the stage was the large emblem of the I. O. D. E.

CRICKET CHAMPIONS PLANNING A SMOKER

It was not found possible to play the South versus North cricket match at Kelowna last Sunday, and it now seems evident that the proposed fixture will not be arranged this season. It was planned to have the pick of Vernon and Salmon Arm players form an eleven to play the cream of the teams from Kelowna south, and there was great interest in the idea. However, Pavilion players notified the rest of the valley last week that they could not possibly make the trip, and the fixture was discarded.

As a wind-up to their year, the cup holders, the Farmers' Cricket Club, will hold a dinner and smoker in the Tourist Hotel at Okanagan Landing, next Thursday evening, October 13, at 8 p.m. A very large number are expected.

CORRECTION

In a letter from W. Crawley Rice, printed in the issue of The Vernon News of last week, there was an unfortunate typographical error which obscured the sense intended. The sentence, "It is quite impossible to secure a good executive head or general manager," should have read, "It is quite possible" etc.

CONSTIPATION

By arousing the torpid, sluggish liver to healthy action, you eliminate the cause of constipation and chronic indigestion. You can depend on this time-proven treatment.

Kidney-Liver Pills

MORE MEN ADDED TO GANGS AT BIG BEND

REVELSTOKE, B. C., Oct. 4.—To all the gap caused by men returning to railway duty, about twenty additional men were added to crews on the Big Bend Highway this week. It is expected that another month will see the end of work for this season unless weather conditions are exceptional for this time of the year.

The department of natural resources, which is doing this big job of connecting the rest of Canada with British Columbia, has made excellent progress on the road during the past summer and no difficulty is expected in having the road completed next year.

TO GET RELIEF CARS

EDMONTON, Alta., Oct. 4.—Shipment of fifteen to twenty cars loaded with apples from British Columbia to needy areas of Alberta will be made again this year, according to A. A. McKenzie, relief commissioner, with growers of B. C. donating the apples.

INER-SCHOOL SPORTS HELD AT REVELSTOKE

REVELSTOKE, B. C., Oct. 4.—For the first time since inter-school sports were inaugurated by the local Revere Club, Central school won the shield, Central school won the number of points garnered by individual pupils, in the annual school sports held at Recreation Park, last Wednesday afternoon.

The day was ideal for outdoor recreation and a large number of interested spectators filled the grandstand at the park. Prior to the event, elimination contests among the various schools had been held for a week and only the cream of contenders participated in the

Scared By Bear, Young Boy Stays From School

LAVINGTON, B. C., Oct. 3.—They're having a hard time persuading young Freddie Oryana to go back to school these days. While returning home from school at Lumby recently, he encountered a bear on the lonely back road.

He says it was a "huge one," and he got a very bad scare. The 11-year-old boy suffered no other ill effects than those of fright, but he could not be induced to continue his classes the next day. A week has gone by, and he has still absent himself from school.

It seems he was walking up a steep hill, pushing his bicycle, when he came face to face with the bear, who was up on his hind legs eating some berries. The animal continued his eating but the boy vanished quickly from the scene.

He is an only son but his parents have taken no undue indulgent attitude. They have insisted that he return to the Lumby school. Meanwhile other interested people have been wondering if he might not be able to attend the Lavington school, but this does not seem possible, for the lad lives just on the other side of the line that divides the school districts.

VERNON SKI CLUB IS WELL PREPARED FOR THIS WINTER'S SPORT

Nearly 60 Members Now Registered — Many Improvements Made

With the winter months drawing closer as each day passes, the members of the Vernon Ski Club are rapidly preparing for one of their most successful seasons. Already they have spent a great deal of time in improving the road and trail up the side of Silver Star and it was largely through their efforts that the provincial forestry branch agreed to build a road up the mountain. This new stretch of road extends 1 1/2 miles beyond the farthest point which cars were formerly able to reach.

In addition to better transportation facilities, the club has also been fortunate in securing better accommodation for its members when they arrive at the ski run. The city of Vernon has given them the use of a cabin which it owns on the mountain and the club is at present busily preparing to roof it with shakes and put in a new floor.

With these added facilities it is stated by the executive of the club that local skiers will have at their disposal one of the finest runs in the province. The statement is attributed to the fact that an ever increasing number of outside ski enthusiasts took advantage of the hill last year and its merits have been very much praised by well known skiers.

This evening, Thursday, the local club is holding its annual meeting and at it the officers for the coming year will be elected. Over 60 members are registered in the society at present and it is expected that the number will have increased greatly by the end of the winter.

Various events Wednesday.

Cups for the best boy and girl athletes were won by Fred Boyle and Eula Gerow.

Council Decides To Delay Decision On Incinerators Here

Heated Discussion Arises After Receipt Of Fire Chief's Letter

Installation of incinerators in lanes at the rear of the main business section of Barnard Avenue was held up by the City Council on Monday evening, though a sharp cleavage of opinion developed.

The measure had been advocated by Alderman A. R. Smith, and at an earlier meeting the Council had decided on the action. Alderman Smith recommended it on the grounds that it would greatly facilitate the handling of refuse, particularly loose paper. Garbage disposal is already hard pressed, he pointed out, and this would be an advantageous way of dealing with the problem.

The Council learned last Monday evening, however, that Fire Chief Ben Dickinson was against the scheme, claiming that it would increase insurance rates.

"Why weren't we told this before?" demanded Alderman Everard Clarke with considerable heat. Under the circumstances, he said, and particularly in view of the absence of Alderman A. O. Wilde, as chairman of the fire committee, he urged that the matter be considered further before being decided on.

"When it becomes time for the Fire Chief to lay down the rules for action in this city then I'll take a holiday," retorted Alderman Smith with even more heat.

"I feel sure that this will create a fire hazard," said Alderman Clarke, who said that the Fire Chief had made such an assertion to him.

This was disputed by Alderman Smith. "Would there be any more fire hazard than with papers scattered around?" he demanded. He suggested that the original intention as to incinerators, decided upon at an earlier Council meeting, be carried out.

"But we weren't told then that the Fire Chief is against this," continued Alderman Clarke. "What's the rush anyway? Shouldn't we make sure that we're not doing anything to raise the fire insurance rates?"

Alderman Smith moved that a letter from the Fire Chief, which stated the latter's objections, should be received and filed and the incinerators should be installed.

As against this Alderman Clarke offered an amendment, holding up action, and this was seconded by Alderman Hurl, and eventually passed.

"We don't know that incinerators will raise the rates," said Mayor Bowman.

"On the other hand you can give me no assurance that it won't affect the rates and I have the Fire

CONCESSION FOR CRESTON GRANTED BY C.P.R. LINE

CRESTON, B.C., Oct. 1.—In an effort to eliminate the fruit trucker in the area as far east as Shaumavon, Sask., the Canadian Pacific Railway has just conceded Creston shippers a substantial freight concession, by establishing the minimum carload of apples at 12,000 pounds—about 300 boxes. Previously the minimum was 30,000 pounds starting in October, and never less than 15,000 pounds.

Apple sales at all points in Saskatchewan show a wonderful improvement over 1937, and are likely to exceed total sales in Alberta.

VOTES OF CONDOLENCE PASSED BY CITY COUNCIL

Members of the City Council, at a special meeting Thursday evening, passed standing resolutions of condolence to relatives of the late Rev. E. J. Sunderland, of Coldstream, and to the late I. V. Saudor, of Vernon. City Clerk J. W. Wright was ordered to write letters to the widows expressing the Council's sympathy. A motion to this effect was moved by Alderman David Howrie, seconded by Alderman O. J. Hurl. Mayor Bowman spoke briefly of the high regard in which these men were held in the community.

ROTARY GOVERNOR IS VISITOR TO REVELSTOKE

REVELSTOKE, B. C., Oct. 4.—Marshall Cornett, of Klamath Falls, Oregon, governor of this district of Rotary, was entertained together with Mrs. Cornett, by the Rotary Club at a social get-together in the club house of the Revelstoke Golf Club last Friday evening. The governor spoke at the weekly luncheon of the club Friday noon. At the Friday evening gathering, Dr. J. A. Chambers and Mrs. Chambers received the best wishes of the Rotarians and their wives on their impending departure for Vancouver, where they will reside in future. Dr. Chambers is a former president of the local club. Former residents of Salmon Arm, they are well known in the Okanagan.

Chief's direct statement that it will," replied Alderman Clarke. "Remember that I'm not necessarily against the idea of the incinerators, but I am urging delayed action until we know exactly where we stand on this. We owe it to the business men of Barnard Avenue."
